A GROUP OF 1000 PEOPLE DRIVEN BY THE SAME SPIRIT.

Since **1956**, we've been part of the evolution of door-entry entrance panels and monitors, actively **driving** progress in the industry. Our experience in this specialised sector — delivering simple, **reliable** and feature-rich solutions — has made us a **recognised name internationally**.

Our **values** and **business vision** are the foundation of a well-structured **global**

organisation, with 10 branch offices, 8 R&D centres, over 1,000 employees, and a commercial presence in more than 90 countries.

In addition to door entry systems, we design and manufacture intruder alarms, video surveillance, home automation, fire protection systems, and access control systems - making us a **single partner specialising** in the **protection** of people and their environments.

VIDEO DOOR ENTRY

AN INTERNATIONAL MODEL OF SUSTAINABILITY AND RESPONSIBILITY

EcoVadis Gold Medal

Comelit has reached an important **milestone** in its constant commitment to the environment, work, human rights, ethics and **sustainable development**.

This recognition was awarded by **EcoVadis**, a leading international agency that assesses **Corporate Social Responsibility** (CSR) performance based on high global standards.

It is important to stress that this is not an end point, but rather another step forwards along the path of **continuous improvement**.

We are proud to share this news with you and to continue working hard to promote **sustainability, ethics** and **corporate social responsibility** in all our activities.

It is an achievement that tangibly highlights Comelit's ongoing commitment to contributing to creating more sustainable, responsible and inclusive futures.

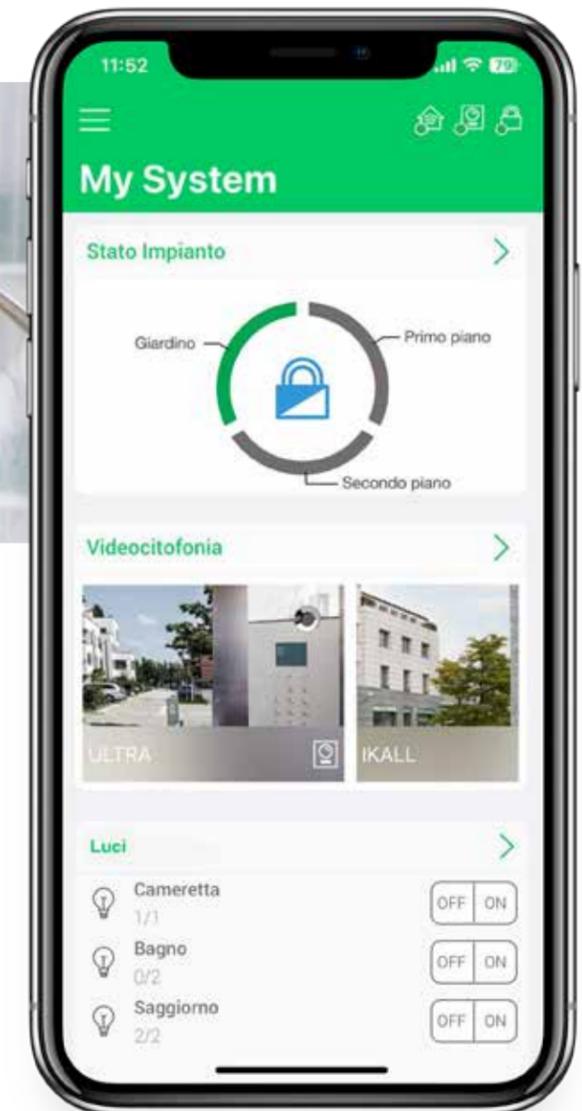

COMELIT APP

FOR END USERS

The entire Comelit world at your fingertips

A single app to manage your integrated systems.

Free of charge and compatible with all modern devices, the Comelit app lets you remotely **manage your** door entry monitors, intruder alarm, video surveillance, and home automation **systems**. It is also possible to customise the app's home page by choosing from the available widgets so that commonly used information and commands are quickly available.

Comelit leads the way in the technological evolution of room management systems, and by **integrating all Comelit systems**, you can achieve an advanced, versatile and customised system that is sure to meet your every need. With Comelit, you can enjoy an unprecedented experience in a comfortable, functional and safe environment.

7TOP: THE SMART DOOR ENTRY MONITOR FOR YOUR HOME

Modern comfort and advanced safety

Our smart door entry monitor system gives you constant control, whether you are at home or away, making your home more secure and comfortable.

A state-of-the-art door entry monitor system

Easy to use and built for security, our door entry monitor system is perfect for today's connected homes. The high-definition resolution ensures clear, detailed visuals of anyone at your door — with no compromises. The 7-inch capacitive touchscreen provides a simple and responsive interface. All the controls are at your fingertips, so you can navigate through the options quickly and effortlessly.

Smart remote control

With the built-in Wi-Fi connection, you can monitor and manage the system remotely using your smartphone or tablet. You will have full control of your home security system from any location, at any time: talk directly to visitors, couriers or other people coming to your door with clear, uninterrupted two-way audio. With Google Home and Alexa, you can control your home using voice commands, for simpler and more technology-driven interactions. It has never been easier to manage any situation.

Elegant design

As well as its advanced features, the system has a sleek, modern design that will add style to your home. This state-of-the-art door entry monitor combines security, technology and design to enhance your daily life. Discover a new level of comfort and protection for your home!

INTRODUCTION

VIDEO DOOR ENTRY

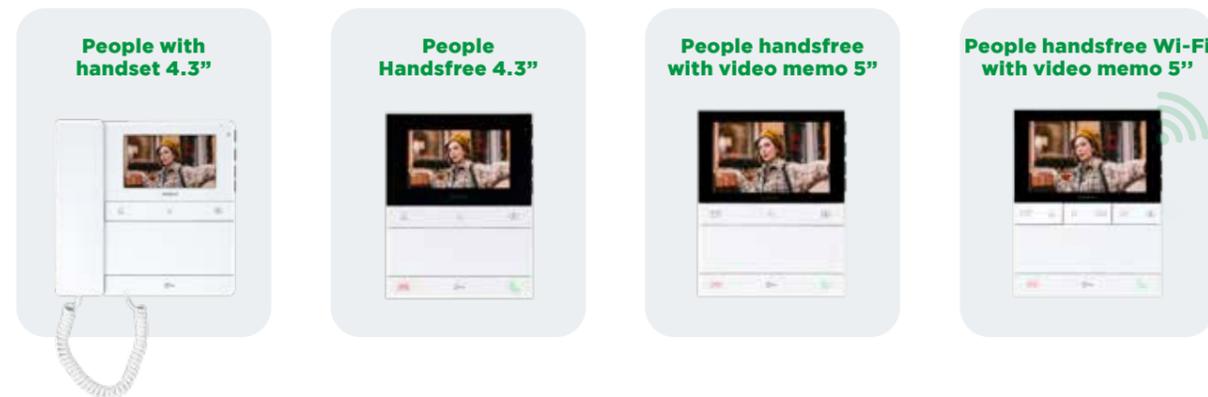

PEOPLE: DESIGNED JUST FOR YOU.

Watchword: robustness.

Designed for **durability**, with materials and advanced components that maintain their shape and performance over time – quality was a priority throughout the development process.

Made of galvanised steel, the **1.5 mm thick metal backplate** ensures perfect installation on any kind of wall, and even on **uneven surfaces**. You will not only save time when installing it, but you will also have an extremely **stable and robust** product that outperforms other models available on the market. Our door entry monitors are designed to **withstand the wear and tear of everyday use** and to maintain a high level of performance for years to come. These devices will remain as reliable and functional as they were on day one, even when used intensively, so there is no need to worry about **accidental damage**.

Save time with a straightforward, hassle-free installation.

Magical configuration.

Step into the Future with NFC technology!

We can proudly say that we are the first to bring door entry monitor configuration to the next level, and this is thanks to NFC technology. Set **up to 10 times** faster than with traditional methods – a **major** advantage on any project.

By simply tapping your smartphone and with our MyComelit app, you can access a whole new world of possibilities. All you need to do is enter the relevant section, set the parameters you want, hold your phone close to the product, and you're done! And there is more: you can set up your door entry monitors even when they are disconnected. It may seem impossible to believe, but they can be set up **directly inside the box**, without even having to open it!

WATCH HOW TO SET UP A DOOR ENTRY MONITOR IN UNDER A MINUTE

- Up to 10 times faster set-up time.
- Programme door entry monitors even without taking them out of the box.
- Create a configuration in the office and send it to your team via WhatsApp, e-mail, etc.
- Copy the configuration of a door entry monitor and apply it to a new one with 2 simple taps.
- Save standard configurations so that you can use them again anytime you want.
- Set up the system before you receive the door entry monitors.

VIDEO DOOR ENTRY

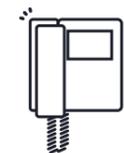

A DOOR ENTRY MONITOR SUITABLE FOR EVERYONE.

Intuitive experience.

★
PATENT
PENDING
★

HANDSET WITH EASY AUTO HANG UP

to avoid accidental dropping.

MICROMECHANICAL BUTTONS

with tactile and audible feedback.

TACTILE MARKINGS

for blind people.

People door entry monitors are exactly what you have been waiting for.

- The “answer” and “end” buttons are purposefully different and far apart from one another, and are backlit in green and red as on a smartphone to avoid mixing them up.
- Handset with easy auto hang up to avoid unwanted dropping or accidental breakage.
- Silent mode to receive calls without being disturbed by the ringtone.
- Browsable menu on the screen with side buttons for adjusting ringtone volume, contrast, brightness and tone.

An Eco-friendly Character.

Protecting the environment is one of our core values, which guides us in everything we do here at Comelit. We care about the future of our planet and we want to contribute to a better world. Our new People door entry monitors are among the most **energy-efficient on the market**. We have invested in state-of-the-art technology so that we can offer high-performing products that are also sustainable.

But that's not all: packaging is also an essential part of our environmental commitment. In fact, we have chosen to use **sustainable materials** in order to reduce our environmental impact. We also use water-based inks when printing, thus eliminating the use of harmful chemical solvents. This choice not only safeguards the environment, but it also ensures greater safety for all of us and for the planet.

By choosing our products, you will be making a conscious choice for a **better future**. A future in which beauty and functionality go hand in hand with environmental responsibility. Together, we can build this future.

GUIDE TO VIDEO ENTRY TECHNOLOGY

NEW PRODUCTS

INTRODUCTION

VIDEO DOOR ENTRY

MULTI-USER GATEWAY

The first smart video entry phone system.

TENANT

Thanks to Comelit App tenants can view and manage all system functions

BUILDING MANAGER

Remote system management is available via Cloud management software

DEVELOPER

From simplicity to luxury, our systems are customisable and suitable for every need

INSTALLER

Easy and handy installation. All you need is a power supply, an Internet connection and a door lock switch

Simplicity in 5 steps

Installing one of our smart video entry phone systems requires **only 5 steps** and is affordable for everyone: from installers to building managers, from developers to tenants.

1. SELECT THE EXTERNAL UNIT

Choose the most suitable entrance panel for your project and define the quantities required.

2. INSTALL THE GATEWAY

The gateway is the tool that allows remote connection of the system to the building. A connection is required for installation, which can be used both for Comelit systems and for other common services already present in the apartment building.

3. ADD LICENCES

It is necessary to purchase a licence for each flat in the building.

4. UPLOAD TENANT INFORMATION

Uploading or updating tenant information such as e-mail addresses and/or phone numbers only takes a few minutes!

5. DONE!

Now all tenants have to do is download the Comelit app and create an account with their e-mail address to gain access to all the services offered by the system. Users who do not wish to use the app can redirect the video entry phone call directly to a phone number.

Licences

Comelit offers **3 types of licences**: each licence can be used by up to 15 devices and different configurations can be set up remotely for individual users or groups of users.

MASTER LICENCE	SLAVE LICENCE	PHONE LICENCE
APP & PHONE	APP, PHONE AND MONITOR	PHONE ONLY
<ul style="list-style-type: none"> Remote video answering from Smartphone or Tablet Answer audio calls on landlines or GSM telephones Can manage up to 15 devices per licence, from Smartphone, Tablet, GSM or landline Telephone backup if data line is down 	<ul style="list-style-type: none"> Remote video answering from Smartphone or Tablet Answer audio calls on landlines or GSM telephones Can manage up to 15 devices per licence, from Smartphone, Tablet, Door entry monitor, GSM or landline Telephone backup if data line is down 	<ul style="list-style-type: none"> Answer audio calls on landlines or GSM telephones 15 phone numbers for each licence

Management via Cloud

MANAGE YOUR SYSTEMS

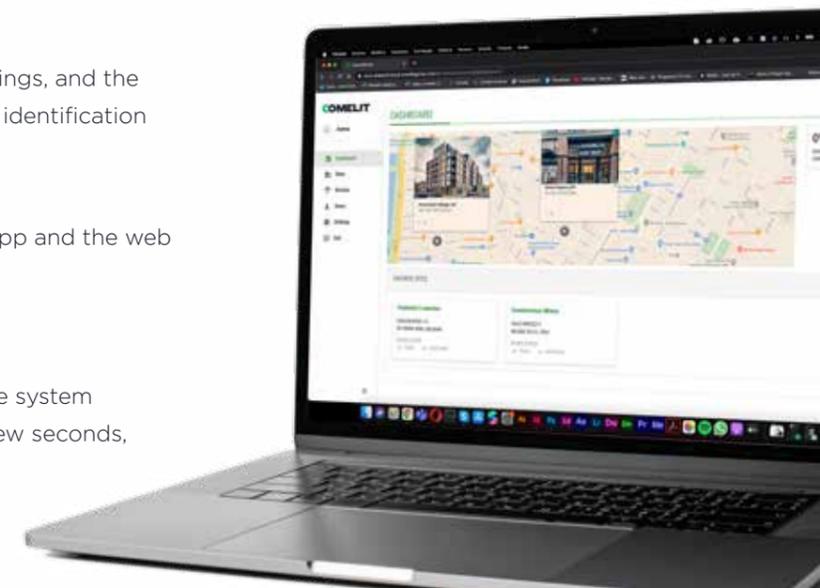

The Cloud platform makes it easy to manage buildings, and the introduction of an interactive map allows for quick identification

APP AND/OR WEB PAGE

Systems can be managed from both the Comelit app and the web page, so you can work wherever you are.

EASY SHARING

Cloud management allows the installer to share the system configuration with the building manager in just a few seconds, which saves time for both!

VIDEO DOOR ENTRY

BE SMART

Join the revolution of the world of video entry phone systems

With the **1406 module**, available as a kit or individually, you can make every apartment in the building “smart”, and it is absolutely **easy to install** and requires no configuration on your part. We have really thought of everything, even the **internet connection is already included for 1 year**, at the end of which, if it is not renewed, residents will continue to enjoy their video entry phone system (not connected). And that is why this offer is so unique: a networked system with the convenience of a traditional system!

50

FLATS MANAGED WITH 1 DEVICE

15

USERS PER FLAT

11

KIT WITH 1 SIM AND 1 YEAR OF INTERNET INCLUDED

ITEMS

1406

SIMPLEBUS 2 MULTI-USER CALL FORWARDING MODULE

Multi-user call forwarding module for Simplebus 2 system, for forwarding video entry phone calls to smartphones/tablets on which the SimpleApp is installed. It allows self-ignition and lock-release command transmission. The module needs an internet connection with suitable bandwidth to work properly. Each module supports up to 50 flats and 15 enabled users per flat; for systems with more than 50 flats, more modules can be installed. Incoming calls will only be received via SimpleApp if a Comelit internal unit is installed inside the flat. It has 1 Ethernet port for internet connection, a 12-56 VDC power supply input and L-L terminals to interface with the Simplebus 2 system. Dimensions (LxHxD): 70x90x62 mm (4 DIN modules).

K1406

SIMPLEBUS 2 MULTI-USER CALL FORWARDING MODULE KIT

Kit for forwarding video entry phone calls to smartphones/tablets for the Simplebus 2 system with connection included for one year. The kit is suitable for installation in blocks of flats and supports up to a maximum of 50 flats with 15 enabled users per flat. If there are more than 50 flats, several kits can be used. Via the SimpleApp, which can be downloaded for free from the Google and Apple stores, you can answer calls remotely and open the front door. Calls can be received via app if at least one Comelit internal unit is installed inside the flat. The kit consists of: 1 call forwarding module for Simplebus 2 system (art. 1406); 1 gateway (art. 1407) with 4G data SIM and one year of internet traffic included; 1 power supply unit (art. 1212/B) to power all the devices included in the kit. All items can be mounted on a DIN rail.

1407

GATEWAY LTE WITH SIM

Gateway with 4G data SIM and a year's usage included, for connecting art. 1406 to the internet. DIN rail support included.

LICENCES FOR K1406

Code

1406C01	CONNECTION LICENCE ART. K1406 1 YEAR
1406C02	CONNECTION LICENCE ART. K1406 2 YEARS
1406C05	CONNECTION LICENCE ART. K1406 5 YEARS
1406C10	CONNECTION LICENCE ART. K1406 10 YEARS

We offer an affordable and highly efficient apartment building system with easy installation, continuous support and remote management. Tenants will enjoy constant connection and comfort at a truly affordable price.

- Qualify your offer**
 Set yourself apart from the competition with a unique, innovative and cost-effective solution.
- Increase the value of the solution**
 Offer the opportunity to try out the benefits of a connected system free of charge for one year.
- Installation without issues**
 The 1406 module has been designed to simplify and speed up the installation process: one device is all you need to connect up to 50 flats!
- Easy configuration**
 Thanks to the simple scan-scan-go system, each tenant can set up their own smartphone in less than 2 minutes.
- Support in future management**
 Comelit support is not limited to installation, but also extends to the management of the system over time.
- Choice of subscription renewal**
 Subscriptions can be renewed by buying a card with a code or you can simply let Comelit take care of everything for you.
- Remote system monitoring**
 You can monitor the system from the “system management” section of your MyComelit APP to check its status at any time.
- Unparalleled convenience**
 Tenants in a block of flats can connect to their video entry phone system at any time using a smartphone.
- Low cost**
 The Comelit solution is cheaper than any alternative available on the market.

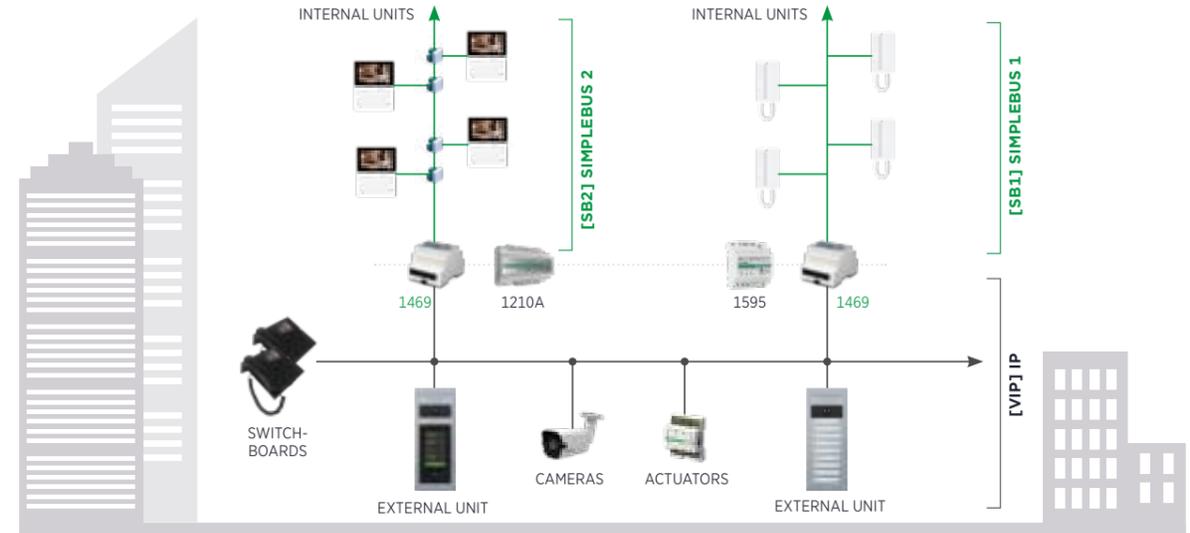

1469

Two worlds coming together

2-wire and IP video door entry systems have never been better connected to meet all our customers' needs. The **1469 interface** allows these two technologies to be perfectly combined, making it easier to install two-wire door entry monitor systems with many **functions**, and allowing for unlimited **expandability** of IP video door entry systems. Combining them is easy: door entry phones, door entry monitors and actuator modules can be installed on the 2-wire riser of the system, while all devices with this technology are supported in the IP part. By adding a multi-user gateway for the IP system, end users will be able to **receive calls**, including high-definition video calls, directly on their **smartphones** and create **virtual access keys** that they can share. The installer or building manager will be able to remotely enable or disable the Comelit App for users from the app or via web browser, using MyComelit, and to change names on external units.

Combining 2-wire simplicity with multiple functions and expandable IP systems

Our entrance panels from great classics to touchscreen!

IP FUNCTIONS IN THE 2-WIRE WORLD: A WHOLE OTHER STORY!

The programming of 2-wire internal units remains the same. However, by using item 1469, the functions of each internal unit are **configured to perform actions in the IP part of the system**. For each 2-wire riser, up to three distinct lock-release actions are available, both during and outside calls, to be paired with the buttons of the 2-wire internal units. The main switchboard or secondary switchboard functions of the internal units can be connected to one or more IP switchboards, and there are no more limitations to the number of actuators: in the IP part, all the actuator modules required to control **lights, lifts, etc.** can be added to the IP part. If there are also **cameras with RTSP streams** available in the system, they can be configured to operate in the 2-wire system.

RETROFIT INSTALLATIONS: WELL, OF COURSE!

Are you renovating an older building and want to **reuse existing 2-wire** cabling, but also add new functions for users or for the building manager? Comelit has the solution you need: all internal units can remain connected via the 2-wire bus, while you can use external units, switchboards and all IP-based products to build a more **flexible, high-performance and continuously updated** basic infrastructure with new functions. The result? That which was old **will become new again!**

Differences and similarities between systems Which is the most suitable?

	2-WIRE SOLUTION	HYBRID SOLUTION	IP SOLUTION
Number of users	120,000	No limitations	No limitations
Maximum distance between external and internal unit	1200 m	130 m for Audio or A/V Simplebus 2 risers, 200 m for A/V Simplebus 1 and 800 m for Audio Simplebus 1. No limitations for IP system base	No limitations
Wiring	2 wires for the riser, 4 wires for the external unit	2 wires for 2-wire CAT5 risers or higher IP system base	CAT5 or higher

Support for multiple simult. calls	No	YES (one for each riser)	Yes
Integration with Comelit fire safety system	No	IP devices only	Yes
Integration with the Comelit Horus supervision system	No	IP external units only	Yes

UNITY DOESN'T JUST CREATE STRENGTH, IT CREATES SAFETY

The first module to allow integration between fire detection and IP video entry systems, designed to be of assistance during hazardous fire situations.

A UNIQUE SOLUTION IN THE SECTOR.

Imagine having the option of a **video entry system** which is integrated with the **fire protection system**, and being able to ensure that danger is reported inside the homes or offices by means of audible and visual alerts! From now on all this will be possible with the new 1467 module: a **highly innovative service**, always tailored to suit **actual installation and operating requirements**, and essential for reporting any abnormalities or hazards even more clearly and instantly.

Another special feature of this new interface is its **ease of installation and configuration**; plus, the module can effortlessly be added to an existing system.

Integration, a focus on people and simplicity are the ingredients of this brand new solution, which is **one of a kind in the industry**.

INTERFACE FIRE TO VIP

The **integration** of the **fire detection system** and the **Comelit IP video entry system** means that the **safety** of a building can always be kept under control.

The video entry system actually uses the 1467 interface to receive information relating to **alarm indications** and distributes it in a logical and structured manner by apartment, floor or area. Alarm messages are sent directly to the door entry monitor by means of a **pop-up and an audible alert** and, if an Internet connection is available, the user will have the option of receiving notifications relating to the event in progress on their smartphone via **Comelit App***. If there is a porter switchboard in the building, this becomes an instrument for receiving all alarm/fault conditions occurring on the fire alarm control panel.

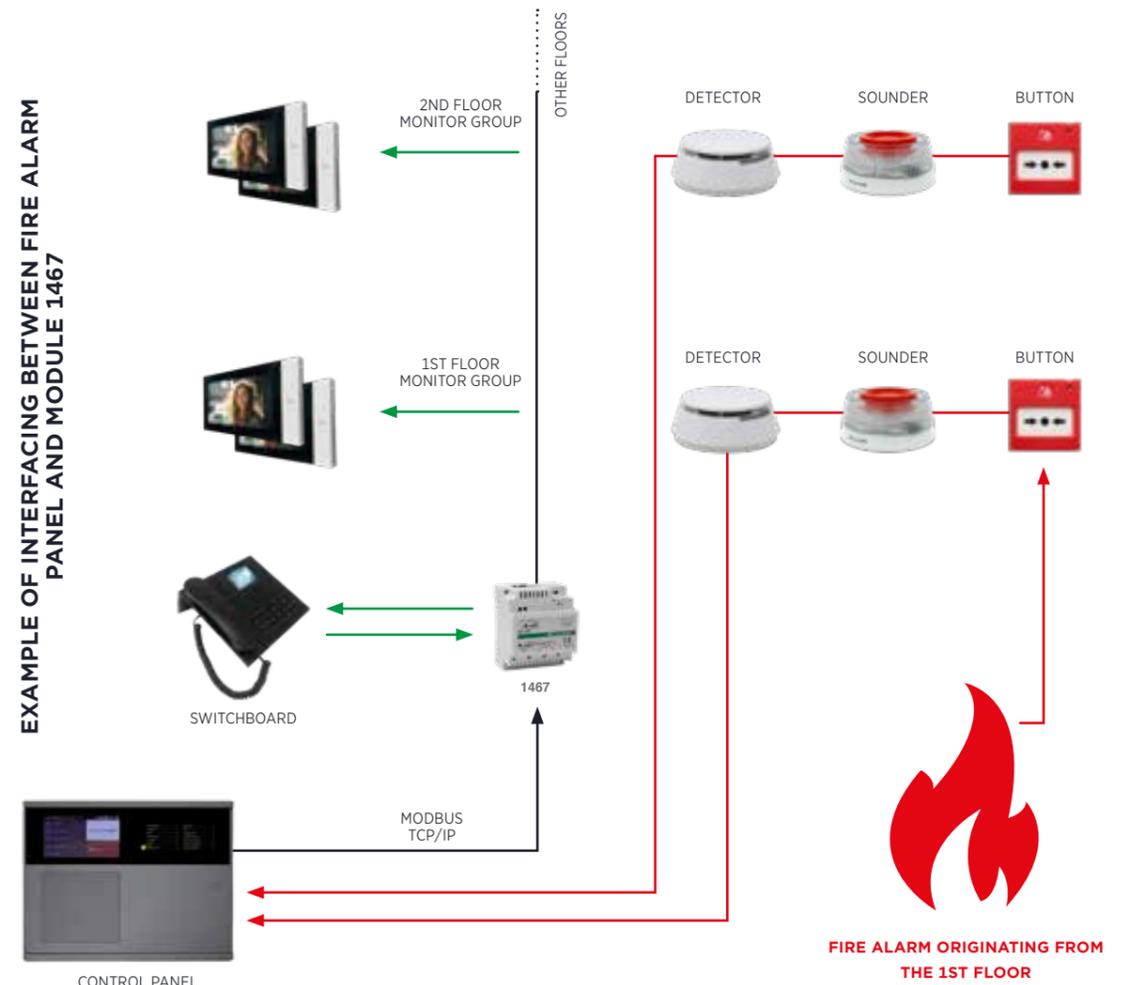

HOW THE INDICATIONS WORK.

The **pre-alarm, alarm and evacuation** indications are sent to all compatible video entry devices, while indications of faults and/or errors in communication between the systems are only sent to the **porter switchboards**. When an alarm, pre-alarm or evacuation event occurs, the door entry monitors will provide a **visual and audible signal**.

- The alert can be silenced **10 seconds** after the signal is received on the door entry monitor; if, however, the alert is not silenced after 100 seconds, the notification remains active on the internal unit but **without** an audible indication.
- When the alert is active, the door entry monitors can still receive calls from the switchboard or external unit, while if the **alert** is generated while a call is in progress, the call is ended in order to **prioritise** the incoming alarm.
- During the fire detection system test phase, alerts are not forwarded to the ViP devices.

The logic for generating signals is taken care of **by the fire detection panel** connected to the **1467 module**.

The logic for sending signals to the door entry monitors and switchboard is completely **programmed** by event type, according to the floor and the zone linked to the detection of the fire.

ACCESSORIES

QUADRA

- 

4791A ADAPTER PLATE FOR CIAO-QUADRA
Plate used to install Ciao and Quadra external units on Comelit, Bticino and Urmet 1- and 2-module flush-mounted boxes. Dimensions: 137x236x2.5 mm.
- 

4792 RAIN SHIELD FOR QUADRA ENTRANCE PANEL
Coated aluminium rain shield for Quadra entrance panel, grey colour. Dimensions: 99x210x41 mm.
- 

4793MA ALUMINIUM FACEPLATE FOR QUADRA WITH BUTTONS
Aluminium colour faceplate for Quadra entrance panel with mechanical buttons.
- 

4793MB BLACK FACEPLATE FOR QUADRA WITH BUTTONS
Black faceplate for Quadra entrance panel with mechanical buttons.
- 

4793MC CORTEN FACEPLATE FOR QUADRA WITH BUTTONS
Corten colour faceplate for Quadra entrance panel with mechanical buttons.
- 

1217A NAMEPLATE LABEL SHEETS FOR QUADRA WITH BUTTONS
The kit contains 10 sheets of adhesive labels for nameplates (7 for 1-button nameplates, 2 for 2-button nameplates, 1 for 4-button nameplates) for Quadra entrance panel with mechanical buttons.
- 

1235A SOFTWARE FOR PRINTING NAMEPLATE LABELS
Dedicated software for the creation and printing of nameplate and information labels for Ikall, Vandalcom, Quadra and 316 Analog entrance panels. Requires use of adhesive labels art.1217, 1218, 1219 or art. 1220. You can download this software for free from the Comelit website.

PEOPLE

- 

AC6711 ADAPTATION FRAME FOR DOOR ENTRY MONITOR
Adaptation frame for the People series door entry monitor, to be used when replacing a previous series of door entry monitors to finalise mounting. Dimensions (LxHxD): 230 x 220 x 3 mm.
- 

AC6719 WALL MOUNT FOR DOOR ENTRY MONITOR WITH HANDSET
Wall mount for People door entry monitor with handset, allowing external routing of cables. Dimensions (LxHxD): 177.3 x 171.4 x 9.7 mm.
- 

AC6720 WALL MOUNT FOR HANDS-FREE DOOR ENTRY MONITOR
Wall mount for People hands-free door entry monitor, allowing external routing of cables. Dimensions (LxHxD): 135.4 x 158 x 17.1 mm.
- 

AC6732 DESK BASE FOR DOOR ENTRY MONITOR
Desk base installation accessory for People series door entry monitors. Dimensions (LxHxD): 135.65 x 110 x 122.5 mm.

ICONA

6117

FLUSH-MOUNTED BOX FOR ICONA DOOR ENTRY MONITOR

Can be used with tilt-adjustment accessory art. 6122. Dimensions: 132x132x50 mm.

6617

FLUSH-MOUNTED BOX FOR ICONA DOOR ENTRY MONITOR ON PLASTERBOARD

Flush-mounted box that enables Icona series door entry monitors to be installed on plasterboard and/or concrete walls. Dimensions: 129x129x50 mm.

6118

PLASTERBOARD INSTALLATION KIT FOR ICONA DOOR ENTRY MONITOR

Accessory allowing installation of door entry monitors on plasterboard walls, without the application of box art. 6117. Installation kit for plasterboard walls.

6620

WALL MOUNT FOR ICONA DOOR ENTRY MONITOR

Wall mount for Icona door entry monitor. Colour: White. Dimensions (LxHxD): 136.6x141.6x13.8 mm.

6612A

DESK BASE FOR ICONA DOOR ENTRY MONITOR

Desk base installation accessory for Icona door entry monitor. Dimensions: 105x70x110 mm.

SYSTEM ACCESSORIES

1209

VIDEO KIT POWER SUPPLY UNIT SIMPLEBUS 2

31 VDC power supply unit for 2-wire KITS for direct connection to the external unit and internal unit. Equipped with overload and short circuit protection. Input voltage 110-240 VAC. Dimensions: 106x89x62 mm (6 DIN modules).

1229A

ADDITIONAL RINGTONE SIMPLEBUS 2

Surface-mounted accessory for additional ringtone for direct connection to 2-wire bus. Allows ringtone selection and adjustment of ringtone volume with privacy function, equipped with dip switches for user code programming, door bell input terminals and call repeat. Fitted with distribution terminal art. 1214/2C. Dimensions: 125x95x24 mm.

1256

DIGITAL ACTUATOR RELAY, SIMPLEBUS SYSTEM

Intelligent device for controlling a 10A relay (on board) for general uses. Follow the instructions provided in the technical documentation for its use and programming. This device can be used in all Simplebus systems. Power supply: 12 VAC or 20 VDC. Dimensions: 66x85x35 mm (4 DIN modules). Supplied with terminal 1214/2C.

1404

DIGITAL SWITCHING DEVICE, SIMPLEBUS 2

Audio/video switching module for Simplebus 2 digital systems. To be used in systems with more than one entrance. Bus line power supply. Dimensions: 60x85x35 mm (4 DIN modules).

1405

QUADRA DIGITAL SWITCHING DEVICE WITH 2 INPUTS, SIMPLEBUS 2

Audio/video switching module for audio/video kit systems. For use only in systems with a maximum of 2 entrances with Quadra series external unit. Bus line power supply. Dimensions: 35x90x58 mm (2 DIN modules).

1409

ACCESSORY FOR REMOTE COLOUR CAMERAS, SIMPLEBUS 2

Remote camera module for Simplebus 2 digital systems. Allows management of up to 3 colour video cameras in cyclical sequence from door entry monitors using a dedicated button. 12 VAC or 20 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).

AC6812

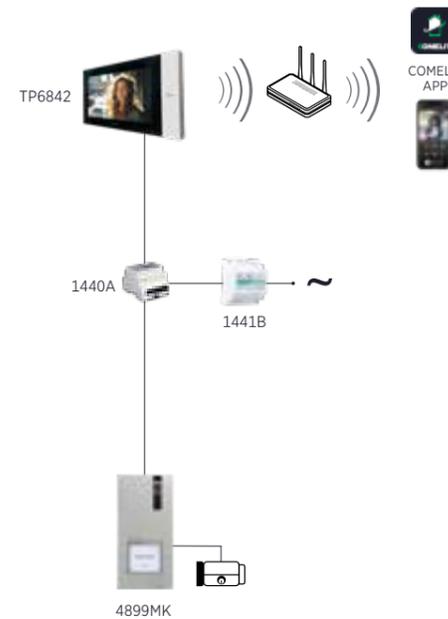

METAL DESK BASE 7TOP DOOR ENTRY MONITOR, VIP

Metal desk base with matt black surface finish, with central hole for tidy cable routing and Comelit logo. Made from a single curved sheet of metal, it minimises the number of components and eliminates the need for ballasts. Designed to combine functionality and aesthetics, it gives balance and stability to the 7TOP door entry monitor, with a simple yet very elegant design.

NOTES

Variants for Users who have the Comelit app for receiving video entry phone calls on a smartphone:

USER WITH DOOR ENTRY MONITOR
1 x Slave gateway art. 1456S
1 x Door entry monitor chosen by the user (see table above)
Comelit app available to download free of charge

USER WITHOUT DOOR ENTRY MONITOR
1 Master gateway art. 1456
Comelit app available to download free of charge

The flush-mounted or surface-mounted box is required for installation of the 6602W and 6802W door entry monitors.

PEOPLE

ITEMS

PL6741

PEOPLE HANDSFREE DOOR ENTRY MONITOR WI-FI 5. SIMPLEBUS 2

People series colour Wi-Fi door entry monitor for Simplebus 2 system. Hands-free version with 5-inch / 16:9 screen. The Comelit app, available to download free from the Google and Apple stores, lets you manage calls and key door entry monitor functions directly from your smartphone or tablet. Whether you're on site or away, you can also use voice commands via Alexa, Echo Show or Google Assistant for added convenience. With the wizard, pairing the door entry monitor with the Comelit app is easy, quick and intuitive. It can also be used to enable the "Facial recognition" function, to automatically - once a person has been recognised - send a lock-release command, trigger an actuator to control a light or additional opening and receive notification when a known individual makes a call. It is equipped with a video memory that allows you to record 8 video clips. It is supplied with a metal surface mounting backplate for stable and strong fixing, and with a line distribution terminal. It has 3 backlit buttons to ensure ease of use: green for the "audio" function, red for the "end communication" function and white for the "electric lock" function, as well as 6 programmable buttons that are pre-configured for the main functions. Instead, on the right-hand side of the door entry monitor, there are buttons for activating the Silent mode and for accessing the menu. It comes as standard with a doorbell that can also be programmed for other functions and terminals for call repetition. The door entry monitor can be programmed, even when switched off, via smartphone using the MyComelit app, which is available to download free of charge. Dimensions (LxHxD): 135 x 170 x 23 mm.

PL6701

PEOPLE DOOR ENTRY MONITOR W/HANDSET 4.3\"/>

People series colour door entry monitor for Simplebus 2 system. Version with handset and 4.3-inch / 16:9 screen. The door entry monitor can be programmed, even when switched off, via smartphone using the MyComelit app, which is available to download free of charge. It is supplied with a metal surface mounting backplate for stable and strong fixing, and with a line distribution terminal. It has 4 mechanical buttons on the front, with icons identifying their factory set functions. One button is backlit white to make the "electric lock" function easier to use. 3 buttons are programmable and pre-configured to call the porter switchboard, control an actuator, and perform self-ignition. The buttons at the centre of each row have tactile markings for blind people. On the right-hand side of the door entry monitor there are buttons for activating Silent mode with a red indicator light and corresponding icon, plus buttons for accessing the menu used to adjust the brightness, contrast, colour and ringtone volume values. It comes as standard with a doorbell that can also be programmed for other functions. Dimensions (LxHxD): 186 x 180 x 35 mm.

PL6721

PEOPLE HANDSFREE DOOR ENTRY MONITOR 4.3\"/>

People series colour door entry monitor for Simplebus 2 system. Hands-free version with 4.3-inch / 16:9 screen. The door entry monitor can be programmed, even when switched off, via smartphone using the MyComelit app, which is available to download free of charge. It is supplied with a metal surface mounting backplate for stable and strong fixing, and with a line distribution terminal. It has 6 mechanical buttons on the front, with icons identifying their factory set functions. 3 of the buttons are backlit to ensure ease of use: green for the "audio socket" function, red for the "end communication" function, and white for the "electric lock" function. 3 buttons are programmable and pre-configured to call the porter switchboard, control an actuator, and perform self-ignition. The buttons at the centre of each row have tactile markings for blind people. On the right-hand side of the door entry monitor there are buttons for activating Silent mode with a red indicator light and corresponding icon, plus buttons for accessing the menu used to adjust the brightness, contrast, colour and ringtone volume values. It comes as standard with a doorbell that can also be programmed for other functions. Dimensions (LxHxD): 135 x 170 x 23 mm.

PL6731

PEOPLE DOOR ENTRY MONITOR 5\"/>

People series colour door entry monitor for Simplebus 2 system. Hands-free version with 5-inch / 16:9 screen. The door entry monitor can be programmed, even when switched off, via smartphone using the MyComelit app, which is available to download free of charge. It is supplied with a metal surface mounting backplate for stable and strong fixing, and with a line distribution terminal. It has 6 mechanical buttons on the front, with icons identifying their factory set functions. 3 of the buttons are backlit to ensure ease of use: green for the "audio socket" function, red for the "end communication" function, and white for the "electric lock" function. 3 buttons are programmable and pre-configured to display images from the video memory, to control an actuator, and to perform self-ignition. The buttons at the centre of each row have tactile markings for blind people. On the right-hand side of the door entry monitor there are buttons for activating Silent mode with a red indicator light and corresponding icon, plus buttons for accessing the menu used to adjust the brightness, contrast, colour and ringtone volume values. It comes as standard with a doorbell that can also be programmed for other functions. Dimensions (LxHxD): 135 x 170 x 23 mm.

ACCESSORIES

AC6711

ADAPTATION FRAME FOR DOOR ENTRY MONITOR

Adaptation frame for the People series door entry monitor, to be used when replacing a previous series of door entry monitors to finalise mounting. Dimensions (LxHxD): 230 x 220 x 3 mm.

AC6719

WALL MOUNT FOR DOOR ENTRY MONITOR WITH HANDSET

Wall mount for People door entry monitor with handset, allowing external routing of cables. Dimensions (LxHxD): 177.3 x 171.4 x 9.7 mm.

AC6720

WALL MOUNT FOR HANDS-FREE DOOR ENTRY MONITOR

Wall mount for People hands-free door entry monitor, allowing external routing of cables. Dimensions (LxHxD): 135.4 x 158 x 17.1 mm.

AC6732

DESK BASE FOR DOOR ENTRY MONITOR

Desk base installation accessory for People series door entry monitors. Dimensions (LxHxD): 135.65 x 110 x 122.5 mm.

ICONA - 4.3" HANDS-FREE DOOR ENTRY MONITOR

ITEMS

6601W

ICONA DOOR ENTRY MONITOR. SIMPLEBUS 2

Icona colour door entry monitor for flush mounting (using optional box art. 6117) or surface mounting (with optional support art. 6620), with 4.3" / 16:9 screen, full-duplex hands-free audio and sensitive-touch commands. Allows adjustment of brightness level, contrast, audio volume and ringtone volume. Ringtones can be customised by selecting from the various melodies provided. Fitted as standard with a key button, enable/disable audio button with corresponding indicator LEDs and a further 7 programmable buttons for self-ignition, privacy service and other programmable functions. It is normally used for doorbell and call repetition management, and comes complete with 2 x 8-position dip-switches for user code programming and button programming. Equipped with riser distribution terminal art. 1214/2C. The door entry monitor can only be used in 2-wire Simplebus 2 digital systems. Dimensions (LxHxD): 142.5x147x23 mm.

6602W/A

ICONA IP DOOR ENTRY MONITOR (VIP), WHITE

Icona colour monitor for flush mounting (using optional box art. 6117) or surface mounting (with optional support art. 6620), with 4.3" / 16:9 touchscreen and full-duplex hands-free audio with magnetic induction. Allows backlight intensity, contrast, audio volume and ringtone volume adjustment. Equipped as standard with sensitive-touch commands for lock-release, audio activation, self-ignition, privacy service and 3 other controls for programmable functions, and door open and new message indicator LEDs. Manages the doorbell and call repetition as standard; includes alarm and panic inputs and a micro-SD card slot. You can customise the ringtone and video memory function with an absent message. Can also be used in standard PoE systems. Compatible with H.264 video format. Dimensions (LxHxD): 142.5x147x23 mm.

6602B

ICONA DOOR ENTRY MONITOR, BLACK. VIP

Icona colour door entry monitor for flush mounting (using optional box art. 6117) or surface mounting (with optional support art. 6620), with 4.3" / 16:9 touchscreen and full-duplex hands-free audio with magnetic induction. Allows backlight intensity, contrast, audio volume and ringtone volume adjustment. Equipped as standard with sensitive-touch commands for lock-release, audio activation, self-ignition, privacy service and 3 other controls for programmable functions, and door open and new message indicator LEDs. Manages the doorbell and call repetition as standard; includes alarm and panic inputs and a micro-SD card slot. You can customise the ringtone and video memory function with an absent message. Can also be used in standard PoE systems. Compatible with H.264 video format. Colour: black. Dimensions (LxHxD): 142.5x147x23 mm.

ACCESSORIES

6117

FLUSH-MOUNTED BOX FOR ICONA DOOR ENTRY MONITOR

Flush-mounted box for Icona door entry monitor. Can be used with tilt-adjustment accessory art. 6122. Dimensions: 132x132x50 mm.

6617

FLUSH-MOUNTED BOX FOR ICONA DOOR ENTRY MONITOR ON PLASTERBOARD

Flush-mounted box that enables Icona series door entry monitors to be installed on plasterboard and/or concrete walls. Dimensions (LxHxD): 129x129x50 mm.

6118

PLASTERBOARD INSTALLATION KIT FOR MAXI AND ICONA DOOR ENTRY MONITORS

Accessory for installing Maxi and Icona door entry monitors on plasterboard walls.

6620

WALL MOUNT FOR ICONA DOOR ENTRY MONITOR

Wall mount for Icona door entry monitor. Colour: White. Dimensions (LxHxD): 136.6x141.6x13.8 mm.

6612A

7TOP - HANDS-FREE DOOR ENTRY MONITOR

ITEMS

TP6842

7TOP 7" HANDSFREE DOOR ENTRY MONITOR, WI-FI, VIP

7TOP door entry monitor for VIP systems with a 7-inch colour touchscreen, equipped with a mechanical lock-release key with backlit icon. A modern, attractive design that combines sturdiness with usability. It can be surface mounted using a metal backplate (included) to ensure it is firmly and securely anchored, or desktop mounted using a special stand (available to purchase separately). It can be powered via standard POE, 1440A distributor or a dedicated 48V power supply input. There is a MicroSD card slot on the side (not included) for uploading custom ringtones. Equipped with programmable local inputs, one programmable output and one additional ringtone output. Ethernet and Wi-Fi connectivity allows you to connect to the Comelit Cloud and receive calls via app on your smartphone, even when you're not at home. Linux operating system, full-duplex hands-free audio and native support for H.264 and H.265 video formats. New icon-based graphical interface, for use in user or installer mode, customisable and easy to use. Many built-in functions, including Automatic updating, Video memo, Alarm management, Auto lock-release (Doctor), Silent mode (Privacy), Automatic answer (Hands-Free), Call divert. Dimensions (LxHxD): 210x120x21 mm. Colour: White/Black or Black/Black.

ACCESSORIES

AC6812

METAL DESK BASE 7TOP DOOR ENTRY MONITOR, VIP

Metal desk base with matt black surface finish, with central hole for tidy cable routing and Comelit logo. Made from a single curved sheet of metal, it minimises the number of components and eliminates the need for ballasts. Designed to combine functionality and aesthetics, it gives balance and stability to the 7TOP door entry monitor, with a simple yet very elegant design.

MAXI - 7" HANDS-FREE DOOR ENTRY MONITOR

ITEMS

6801W

MAXI DOOR ENTRY MONITOR. SIMPLEBUS 2

Maxi colour door entry monitor for flush mounting (using optional box art. 6817) or surface mounting (with optional support art. 6820), with 7" / 16:9 screen, full-duplex hands-free audio and sensitive-touch commands. Allows brightness, contrast, audio volume and ringtone volume adjustment. Ringtones can be customised by selecting from the various melodies provided. Fitted as standard with a key button, enable/disable audio button with corresponding indicator LEDs and a further 6 programmable buttons for self-ignition, privacy service and other programmable functions. It is normally used for doorbell and call repetition management, and comes complete with 2 x 8-position dip-switches for user code programming and button programming. Equipped with riser distribution terminal art. 1214/2C. The door entry monitor can be used in Simplebus 2 2-wire digital systems. Dimensions (LxHxD): 223x124x25 mm.

6813W

7" MAXI MONITOR WITH ANDROID, WHITE. VIP

The Maxi with Android door entry monitor is compatible with the Comelit IP video entry system (ViP), with 7" touchscreen, based on the Android operating system where, with the same flexibility as a tablet, it is possible to load third-party apps. The apps must be verified and certified by Comelit to guarantee compatibility and to allow them to load, which otherwise would not be possible. This means the user is offered a device which is no longer just a door entry monitor, but a controller for the home that can be used to manage the functions offered by systems from other manufacturers, for example managing home automation, intruder alarm and building services, plus accessing web pages and using pre-installed apps. The device has a LAN port and Wi-Fi connection to guarantee independent IP video entry system connection and the Internet connection required to use the installed apps.

ACCESSORIES

6817

FLUSH-MOUNTED BOX FOR MAXI DOOR ENTRY MONITOR

Flush-mounted box for Maxi door entry monitor in black ABS plastic. Dimensions (L x H x D): 212x115x50 mm.

MINI AUDIO - DOOR-ENTRY PHONE WITH HANDSET

ITEMS

	2703U	2-BUTTON MINI DOOR-ENTRY PHONE, UNIVERSAL Universal MINI series door-entry phone, compatible with most of the door-entry phones produced by leading international manufacturers. Ideal in door-entry phone system replacements and repairs. Key button and an extra button for additional services with independent common. Electronic or mechanical ringtone. Call volume adjustment and privacy control via 3-position selector. The activation of privacy mode is signalled by a red indicator. It also has a speaker volume adjuster and a microphone volume adjuster to meet any requirement and can be used in systems with a positive common as well as systems with a negative common. Dimensions: 103 x 190 x 30 mm.	
	2812W	2-BUTTON MINI DOOR-ENTRY PHONE FOR KIT KCA0061 Mini series additional door-entry phone with handset for kit art. KCA0061, with electronic call, call volume adjustment and privacy. Features a key button and a free button (C/NO). Allows call repetition. Dimensions: 103x190x30 mm	
	2702W	2-BUTTON MINI DOOR-ENTRY PHONE. TRADITIONAL Mini series monitor for conventional systems with electronic call, key button and supplementary button for additional services. Call volume adjustment and privacy control via 3-position selector. The activation of privacy mode is signalled by a red indicator. Dimensions: 105x191x28 mm	
	2708W/A	MINI DOOR-ENTRY PHONE WITH HANDSET - SIMPLEBUS 1 Mini series door-entry phone with handset for Simplebus 1 audio systems. Equipped with a key button, buttons for additional services such as calls to the porter switchboard, call volume adjustment, Silent mode (Privacy) and floor call input. Correct positioning of the handset on the base is facilitated by invisible magnetised panels. The additional board art. 2735 is available to purchase separately, for an additional button with voltage free contacts and call repetition.	

	2738W/A	MINI DOOR-ENTRY PHONE WITH HANDSET - SIMPLEBUS 2 Mini series door-entry phone with handset for Simplebus 2 audio systems. Equipped with a key button, buttons for additional services such as calls to the porter switchboard, call volume adjustment, Silent mode (Privacy) and floor call input. The positioning of the handset on the base is facilitated by invisible magnetised panels. The additional board art. 2735 is available to purchase separately, for an additional button with voltage free contacts and call repetition. Fitted with terminal art. 1214/2C.	
	2719W	5-BUTTON MINI DOOR-ENTRY PHONE, SIMPLEBUS 1 AND 2 MINI series door-entry phone with handset, electronic call, call volume adjustment, privacy function and conversation privacy. Equipped with a series of key buttons and a further 4 buttons for intercom function or various services (1 of the buttons can be used as a C/N.O contact). Equipped with LED that may be used for various signals (busy, doctor function). Complete with 8-position dip switch for selection of the desired user code. Door-entry phone for use in all Simplebus systems. Equipped with a selector to define the type of Simplebus 1 or Simplebus 2 system. Allows management of doorbell, call repeat, sending of alarm signals, main switchboard call, secondary switchboard call and intercom call. Fitted with terminal art. 1214/2C. Dimensions: 105x191x28 mm.	
ACCESSORIES			
	2735	CALL REPETITION CARD + MINI DOOR-ENTRY PHONE BUTTON WITH HANDSET Additional board for door-entry phones art. 2708W/A and 2738W/A when using call repetition and an additional button with free contacts. Cable for connection to the main board and fixing screws supplied.	
	2720W	MOUNT FOR ROUTING OF EXTERNAL CABLES FOR MINI HANDSET MONITOR Surface-mounted support for Mini door-entry phones with handset, allowing external routing of cables	
	2742W	DESK BASE FOR MINI DOOR-ENTRY PHONES WITH HANDSET Desk base that enables the MINI series door-entry phone with handset to be converted into a desk version.

SONUS - HANDSFREE DOOR-ENTRY PHONE

ITEMS

6205W

SONUS HANDSFREE DOOR-ENTRY PHONE, WHITE. ViP

Design-led door-entry phone for ViP system, with hands-free and electronic call. It features 5 buttons on the front, of which 2 have backlit icons identifying their factory-set functions (lock-release and call management) and 3 are programmable buttons. The buttons have tactile markings for blind people. There are 2 switches on the left-hand side of the door-entry phone: the first sets the ringtone volume or silent mode (with indicator LED) and the second sets the audio volume. It allows "Automatic lock-release on receipt of call (Doctor)", "Automatic answer (hands-free)", conversation privacy and doorbell management modes. Dimensions (LxHxD): 121 x 121 x 25 mm.

MODULES

UT9200

MODULE FOR UT9211 AND UT9212 ULTRA BUTTONS
Call button module for Ultra entrance panel, compatible with all systems. With facility for 8 call buttons in professional-grade plastic given an anti-yellowing and anti-dulling treatment or in aluminium. For completion with 4 single buttons art. UT9211, UT9211M, UT9211FM (4 calls), 4 double buttons art. UT9212, UT9212M, UT9212FM (8 calls) or with caps art. UT9221, UT9221M, UT9222, UT9223, UT9222M or UT9223M. Automatic nameplate backlight switch-off during daytime hours via the twilight sensor for the paired audio or audio/video module. White RAL9016 nameplate lighting. Dimensions (LxHxD): 100 x 90 x 35 mm.

UT9201

MODULE FOR UT9213 AND UT9214 ULTRA BUTTONS
Module for large call buttons for Ultra entrance panel, compatible with all systems. Designed for 1 large single call button or for 2 double-height buttons, made using professional-grade plastic given an anti-yellowing and anti-dulling treatment. For completion with 1 large single call button art. UT9213 (1 call), 2 double-height buttons art. UT9214 (2 calls) or with caps art. UT9222, UT9223, UT9222M or UT9223M. Automatic nameplate backlight switch-off during daytime hours via the twilight sensor for the paired audio or audio/video module. White RAL9016 nameplate lighting. Dimensions (LxHxD): 100 x 90 x 35 mm.

UT9260M

ULTRA DIGITAL DIRECTORY MODULE WITH DISPLAY
Digital directory module for Ultra entrance panel, compatible with all systems. Bluetooth connection for managing names in the directory via the installer's MyComelit app. Buttons for selecting the user and the call. Option of customising a button for direct calls to the switchboard, commercial activities, activation of an opening or a light. Features a 3.5" colour graphic display. Can be used in combination with the number keypad module (rel. 1.1.0 or higher) to directly call the user when the relevant code is known, or for the access control function with activation of the audio or audio/video module outputs and the system actuators. Dimensions (LxHxD): 100 x 90 x 35 mm.

UT9270

ULTRA TOUCH SCREEN MODULE
Touch screen module for Ultra entrance panel, compatible with all systems. Bluetooth connection for managing names in the directory via the installer's MyComelit app. An easy-to-use graphical user interface that allows you to customise the button interface for direct calls to the switchboard, business activities (with relevant logos), activate an opening or a light, and view general messages of each block of flats. Can be used as a number keypad module to directly call the user when the relevant code is known, or for the access control function with activation of the audio or audio/video module outputs and the system actuators. 5" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). It has a Wiegand output for interfacing with access control systems. Equipped with RFID reader for activation of an opening using keys or Comelit cards. Automatic backlight regulation via the twilight sensor for the paired audio or audio/video module. Dimensions (LxHxD): 100 x 180 x 35 mm.

**UT9279M
UT9279MW
UT9279MB**

ULTRA NUMBER KEYPAD MODULE
Module with number keypad for Ultra entrance panel, compatible with all systems. Can be used as a module to directly call the user when the relevant code is known, and for the access control function with activation of the on-board relays and the audio or audio/video module outputs and the system actuators. The access codes can be Permanent (always valid), metered (valid for a specific number of uses) or associated with a validity date. In the latter case, each code can be assigned a start date/validity end date, dual daily time band, validity days. Up to 4 different actions can be assigned to each access code. The function enabling playback for the corresponding audio message when each button is pressed can be activated. There is also an event log containing all information (codes activated, user who used them, users called, etc.) which can store up to 1275 events. It has a Wiegand output for interfacing with access control systems. Automatic button backlight switch-off during daytime hours via the twilight sensor for the paired audio or audio/video module. Anodised aluminium alloy coating. Dimensions (LxHxD): 100 x 90 x 35 mm.

FLUSH-MOUNTED ACCESSORIES

	<p>UT9161 UT9161W UT9161B</p>	<p>FLUSH-MOUNTED FRAME, 1 MODULE, ULTRA 1-module flush-mounted frame for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cathoporesis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. 10 mm protrusion from the wall. It can be used on flush-mounted boxes Art. 3110/1 and 3110/1A with the option of placing several modules side by side horizontally. Dimensions (LxHxD): 125.5 x 136 x 35 mm. <i>Also available in versions: White RAL9016 (UT9161W) and Black RAL9005 (UT9161B).</i></p>		
	<p>UT9162 UT9162W UT9162B</p>	<p>FLUSH-MOUNTED FRAME, 2 MODULES, ULTRA 2-module flush-mounted frame for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cathoporesis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. 10 mm protrusion from the wall. It can be used on flush-mounted boxes Art. 3110/2 and 3110/2A with the option of placing several modules side by side horizontally. Dimensions (LxHxD): 125.5 x 226.5 x 35 mm. <i>Also available in versions: White RAL9016 (UT9162W) and Black RAL9005 (UT9162B).</i></p>		
	<p>UT9163 UT9163W UT9163B</p>	<p>FLUSH-MOUNTED FRAME, 3 MODULES, ULTRA 3-module flush-mounted frame for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cathoporesis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. 10 mm protrusion from the wall. It can be used on flush-mounted boxes Art. 3110/3 and 3110/3A with the option of placing several modules side by side horizontally. Dimensions (LxHxD): 125.5 x 317.5 x 35 mm. <i>Also available in versions: White RAL9016 (UT9163W) and Black RAL9005 (UT9163B).</i></p>		
	<p>UT9164 UT9164W UT9164B</p>	<p>FLUSH-MOUNTED FRAME, 4 MODULES, ULTRA 4-module flush-mounted frame for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cathoporesis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. 10 mm protrusion from the wall. It can be used on flush-mounted boxes art. 3110/4 and 3110/4A with the option of placing several modules side by side horizontally. Dimensions (LxHxD): 125.5 x 408 x 35 mm. <i>Also available in versions: White RAL9016 (UT9164W) and Black RAL9005 (UT9164B).</i></p>		
	<p>UT9181 UT9181W UT9181B</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 1 MODULE, ULTRA Rain shield for flush-mounted frames, 1 module, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 132 x 141 x 32 mm. <i>Also available in versions: White RAL9016 (UT9181W) and Black RAL9005 (UT9181B).</i></p>		
	<p>UT9182 UT9182W UT9182B</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 2 MODULES, ULTRA Rain shield for flush-mounted frames, 2 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 132 x 232 x 32 mm. <i>Also available in versions: White RAL9016 (UT9182W) and Black RAL9005 (UT9182B).</i></p>		
	<p>UT9183 UT9183W UT9183B</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 3 MODULES, ULTRA Rain shield for flush-mounted frames, 3 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 132 x 322 x 32 mm. <i>Also available in versions: White RAL9016 (UT9183W) and Black RAL9005 (UT9183B).</i></p>		
	<p>UT9184 UT9184W UT9184B</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 4 MODULES, ULTRA Rain shield for flush-mounted frames, 4 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 132 x 413 x 32 mm. <i>Also available in versions: White RAL9016 (UT9184W) and Black RAL9005 (UT9184B).</i></p>		

	<p>UT9184H</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 2X2 MODULES, ULTRA Rain shield for flush-mounted frame, 4 modules (2 supports of 2 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 259 x 232 x 32 mm.</p>		
	<p>UT9186</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 6 MODULES, ULTRA Rain shield for flush-mounted frame, 6 modules (2 supports of 3 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 259 x 322 x 32 mm.</p>		
	<p>UT9188</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 8 MODULES, ULTRA Rain shield for flush-mounted frame, 8 modules (2 supports of 4 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 259 x 413 x 32 mm.</p>		
	<p>UT9189</p>	<p>FLUSH-MOUNTED RAIN SHIELD, 9 MODULES, ULTRA Rain shield for flush-mounted frame, 9 modules (3 supports of 3 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 386 x 322 x 32 mm.</p>		
	<p>31141</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 1 MODULE, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 1 module. Dimensions (LxHxD): 149 x 149 x 3 mm.</p>		
	<p>31142</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 2 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 2 modules. Dimensions (LxHxD): 149 x 239 x 3 mm.</p>		
	<p>31143</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 3 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 3 modules. Dimensions (LxHxD): 149 x 329 x 3 mm.</p>		
	<p>31144L</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 4 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 4 modules. Dimensions (LxHxD): 149 x 419 x 3 mm.</p>		
	<p>31144</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 2X2 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 4 modules (for 2 supports of 2 side-by-side modules). Dimensions (LxHxD): 276 x 239 x 3 mm.</p>		
	<p>31146</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 2X3 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 6 modules (for 2 supports of 3 side-by-side modules). Dimensions (LxHxD): 276 x 329 x 3 mm.</p>		
	<p>31149</p>	<p>FLUSH-MOUNTED FINISHING FRAME, 3X3 MODULES, FOR ENTRANCE PANELS Natural anodised aluminium finishing frame, 9 modules (for 3 supports of 3 side-by-side modules). Dimensions (LxHxD): 403 x 329 x 3 mm.</p>		

	3110/1A	FLUSH-MOUNTED BOX, 1 MODULE, FOR ENTRANCE PANELS Flush-mounted box for 1-module outdoor entrance panels. Can also be installed on plasterboard walls (using optional accessories). Dimensions (LxHxD): 123.5 x 122.5 x 50 mm.	 
	3110/2A	FLUSH-MOUNTED BOX, 2 MODULES, FOR ENTRANCE PANELS Flush-mounted box for 2-module outdoor entrance panels. Can also be installed on plasterboard walls (using optional accessories). Dimensions (LxHxD): 123.5 x 212.5 x 50 mm.	 
	3110/3A	FLUSH-MOUNTED BOX, 3 MODULES, FOR ENTRANCE PANELS Flush-mounted box for 3-module outdoor entrance panels. Can also be installed on plasterboard walls (using optional accessories). Dimensions (LxHxD): 123.5 x 302.5 x 50 mm.	 
	3110/4A	FLUSH-MOUNTED BOX, 4 MODULES, FOR ENTRANCE PANELS Flush-mounted box for 4-module outdoor entrance panels. Can also be installed on plasterboard walls (using optional accessories). Dimensions (LxHxD): 123.5 x 392.5 x 50 mm.	 

SURFACE-MOUNTED ACCESSORIES

	UT9171 UT9171W UT9171B	SURFACE-MOUNTED HOUSING, 1 MODULE, ULTRA 1-module surface-mounted housing for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. Dimensions (LxHxD): 110 x 107 x 35 mm. <i>Also available in versions: White RAL9016 (UT9171W) and Black RAL9005 (UT9171B).</i>	 
	UT9172 UT9172W UT9172B	SURFACE-MOUNTED HOUSING, 2 MODULES, ULTRA 2-module surface-mounted housing for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. Dimensions (LxHxD): 110 x 198 x 35 mm. <i>Also available in versions: White RAL9016 (UT9172W) and Black RAL9005 (UT9172B).</i>	 
	UT9173 UT9173W UT9173B	SURFACE-MOUNTED HOUSING, 3 MODULES, ULTRA 3-module surface-mounted housing for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. Dimensions (LxHxD): 110 x 289 x 35 mm. <i>Also available in versions: White RAL9016 (UT9173W) and Black RAL9005 (UT9173B).</i>	 
	UT9174 UT9174W UT9174B	SURFACE-MOUNTED HOUSING, 4 MODULES, ULTRA 4-module surface-mounted housing for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. Dimensions (LxHxD): 110 x 380 x 35 mm. <i>Also available in versions: White RAL9016 (UT9174W) and Black RAL9005 (UT9174B).</i>	 
	UT9174H	SURFACE-MOUNTED HOUSING, 2X2 MODULES, ULTRA 4-module surface-mounted housing (2 supports of 2 side-by-side modules) for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. The cable for connecting the modules side by side is supplied. Dimensions (LxHxD): 221 x 198 x 35 mm.	 

	UT9176	SURFACE-MOUNTED HOUSING, 6 MODULES, ULTRA 6-module surface-mounted housing (2 supports of 3 side-by-side modules) for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. The cable for connecting the modules side by side is supplied. Dimensions (LxHxD): 221 x 289 x 35 mm.	 
	UT9178	SURFACE-MOUNTED HOUSING, 8 MODULES, ULTRA 8-module surface-mounted housing (2 supports of 4 side-by-side modules) for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. The cable for connecting the modules side by side is supplied. Dimensions (LxHxD): 221 x 380 x 35 mm.	 
	UT9179	SURFACE-MOUNTED HOUSING, 9 MODULES, ULTRA 9-module surface-mounted housing (3 supports of 3 side-by-side modules) for Ultra entrance panel, colour silver RAL9006. Consists of a metal support that secures the modules without using screws and with a finishing frame in die-cast aluminium given a cataphoresis treatment to increase its resistance to chemical and environmental corrosion, including damage from UV rays. Just 35 mm protrusion from the wall. The cable for connecting the modules side by side is supplied. Dimensions (LxHxD): 332 x 289 x 35 mm.	 
	3649/1	HOUSING FOR 45° ENTRANCE PANEL TILT, 1 MODULE Housing for 45° tilt of Ultra, Powercom, Ikall and Ikall Metal 1-module outdoor entrance panels. Dimensions (LxHxD): 183 x 130 x 100 mm.	 
	3649/2	HOUSING FOR 45° ENTRANCE PANEL TILT, 2 MODULES Housing for 45° tilt of Ultra, Powercom, Ikall and Ikall Metal 2-module outdoor entrance panels. Dimensions (LxHxD): 183 x 242 x 100 mm.	 
	3649/3	HOUSING FOR 45° ENTRANCE PANEL TILT, 3 MODULES Housing for 45° tilt of Ultra, Powercom, Ikall and Ikall Metal 3-module outdoor entrance panels. Dimensions (LxHxD): 183 x 354 x 100 mm.	 
	UT9191 UT9191W UT9191B	SURFACE-MOUNTED RAIN SHIELD, 1 MODULE, ULTRA Rain shield for surface-mounted housing, 1 module, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 116 x 112 x 57 mm. <i>Also available in versions: White RAL9016 (UT9191W) and Black RAL9005 (UT9191B).</i>	 
	UT9192 UT9192W UT9192B	SURFACE-MOUNTED RAIN SHIELD, 2 MODULES, ULTRA Rain shield for surface-mounted housing, 2 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 116 x 203 x 57 mm. <i>Also available in versions: White RAL9016 (UT9192W) and Black RAL9005 (UT9192B).</i>	 
	UT9193 UT9193W UT9193B	SURFACE-MOUNTED RAIN SHIELD, 3 MODULES, ULTRA Rain shield for surface-mounted housing, 3 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 116 x 293 x 57 mm. <i>Also available in versions: White RAL9016 (UT9193W) and Black RAL9005 (UT9193B).</i>	 
	UT9194 UT9194W UT9194B	SURFACE-MOUNTED RAIN SHIELD, 4 MODULES, ULTRA Rain shield for surface-mounted housing, 4 modules, for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 116 x 385 x 57 mm. <i>Also available in versions: White RAL9016 (UT9194W) and Black RAL9005 (UT9194B).</i>	 

	UT9194H	SURFACE-MOUNTED RAIN SHIELD, 2X2 MODULES, ULTRA Rain shield for surface-mounted housing, 4 modules (2 supports of 2 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 227 x 203 x 57 mm.	 
	UT9196	SURFACE-MOUNTED RAIN SHIELD, 6 MODULES, ULTRA Rain shield for surface-mounted housing, 6 modules (2 supports of 3 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 227 x 293 x 57 mm.	 
	UT9198	SURFACE-MOUNTED RAIN SHIELD, 8 MODULES, ULTRA Rain shield for surface-mounted housing, 8 modules (2 supports of 4 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 227 x 385 x 57 mm.	 
	UT9199	SURFACE-MOUNTED RAIN SHIELD, 9 MODULES, ULTRA Rain shield for surface-mounted housing, 9 modules (3 supports of 3 side-by-side modules), for Ultra entrance panel. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 338 x 293 x 57 mm.	 
	3639/0	STAND FOR SURFACE-MOUNTED ENTRANCE PANELS, HEIGHT 170 CM Stand for surface-mounted Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18x170x7.5 cm.	 
	3639/1	STAND FOR 1-MODULE ENTRANCE PANELS, HEIGHT 170 CM Stand for 1-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18x170x7.5 cm.	 
	3639/2	STAND FOR 2-MODULE ENTRANCE PANELS, HEIGHT 170 CM Stand for 2-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18x170x7.5 cm.	 
	3639/3	STAND FOR 3-MODULE ENTRANCE PANELS, HEIGHT 170 CM Stand for 3-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18x170x7.5 cm.	 
	3639/4	STAND FOR 4-MODULE ENTRANCE PANELS, HEIGHT 170 CM Stand for 4-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18x170x7.5 cm.	 
	3640/0	STAND FOR SURFACE-MOUNTED ENTRANCE PANELS, HEIGHT 117 CM Stand for surface-mounted Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18 x 117 x 7.5 cm.	 
	3640/1	STAND FOR 1-MODULE ENTRANCE PANELS, HEIGHT 117 CM Stand for 1-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18 x 117 x 7.5 cm.	 

	3640/2	STAND FOR 2-MODULE ENTRANCE PANELS, HEIGHT 117 CM Stand for 2-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18 x 117 x 7.5 cm.	 
	3640/3	STAND FOR 3-MODULE ENTRANCE PANELS, HEIGHT 117 CM Stand for 3-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18 x 117 x 7.5 cm.	 
	3640/4	STAND FOR 4-MODULE ENTRANCE PANELS, HEIGHT 117 CM Stand for 4-module Ultra, Powercom, Ikall and Ikall Metal outdoor entrance panels. Dimensions (LxHxD): 18 x 117 x 7.5 cm.	 
	UT9141	ULTRA ADAPTER PLATE FOR 1-MODULE BOXES Plate used to install Ultra series surface-mounted entrance panels in 1-module flush-mounted boxes made by leading competitors. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 140 x 139 x 3 mm.	 
	UT9142	ULTRA ADAPTER PLATE FOR 2-MODULE BOXES Plate used to install Ultra series surface-mounted outdoor entrance panels in 2-module flush-mounted boxes made by leading competitors. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 140 x 229 x 3 mm.	 
	UT9143	ULTRA ADAPTER PLATE FOR 3-MODULE BOXES Plate used to install Ultra series surface-mounted outdoor entrance panels in 3-module flush-mounted boxes made by leading competitors. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 140 x 320 x 3 mm.	 
	UT9144	ULTRA ADAPTER PLATE FOR 4-MODULE BOXES Plate used to install Ultra series surface-mounted outdoor entrance panels units in 4-module flush-mounted boxes made by leading competitors. Made of grey-coloured anodised aluminium. Dimensions (LxHxD): 140 x 410 x 3 mm.	 

ACCESSORIES

	UT9110	ULTRA NAMEPLATE LABEL SHEETS The kit contains 5 sheets of pre-cut adhesive labels for nameplates and 1 sheet for info modules. To print, use the editable .pdf file which is available to download free of charge from the website pro.comelitgroup.com .	 
	UT9331	THIRD-PARTY PLATE ADAPTER. 1 ULTRA MODULE Adapter for mounting 1 flush-mounted Ultra module on third-party plates from the rear. The thickness of the plate can vary between 1.5 and 3 mm. The adapter is ready to be installed on 2.5 mm thick plates. Dimensions (LxHxD): 138 x 150 x 37 mm.	 
	UT9332	THIRD-PARTY PLATE ADAPTER. 2 ULTRA MODULES Adapter for mounting 2 Ultra modules, flush-mounted, on third-party plates from the rear. The thickness of the plate can vary between 1.5 and 3 mm. The adapter is ready to be installed on 2.5 mm thick plates. Dimensions (LxHxD): 138 x 240.7 x 37 mm.	 
	UT9333	THIRD-PARTY PLATE ADAPTER. 3 ULTRA MODULES Adapter for mounting 3 Ultra modules, flush-mounted, on third-party plates from the rear. The thickness of the plate can vary between 1.5 and 3 mm. The adapter is ready to be installed on 2.5 mm thick plates. Dimensions (LxHxD): 138 x 331.4 x 37 mm.	 

UT9334

THIRD-PARTY PLATE ADAPTER. 4 ULTRA MODULES

Adapter for securing 4 flush-mounted Ultra modules to third-party entrance panels from the rear. The thickness of the plate can vary between 1.5 and 3 mm. The adapter is ready to be installed on 2.5 mm thick plates. Dimensions (LxHxD): 138 x 422 x 37 mm.

UT9331P

PLASTERBOARD FIXING KIT. 1 ULTRA MODULE

Kit for installing the 1-module Ultra entrance panel on plasterboard walls.

UT9332P

PLASTERBOARD FIXING KIT. 2 ULTRA MODULES

Kit for installing the 2-module Ultra entrance panel on plasterboard walls.

UT9333P

PLASTERBOARD FIXING KIT. 3 ULTRA MODULES

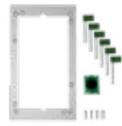

Kit for installing the 3-module Ultra entrance panel on plasterboard walls.

UT9334P

PLASTERBOARD FIXING KIT. 4 ULTRA MODULES

Kit for installing the 4-module Ultra entrance panel on plasterboard walls.

UT9333G

GLASS INSTALLATION KIT. 3 ULTRA MODULES

Kit for installing the 3-module Ultra entrance panel on glass walls.

BASIC INSTALLATION KIT

UT8090

ULTRA VIP VIDEO+TOUCH COMPLETE ENTRANCE PANEL

Ultra series flush-mounted audio/video entrance panel with 5" touch-screen module, for IP (ViP) system. Twilight sensor for touch-screen backlighting management. Omnidirectional digital microphone and dual loudspeaker for high-fidelity audio. Wide-angle colour video camera with 160° horizontal and 90° vertical field of view. Audio-visual indications for disabled persons requesting assistance. 5" capacitive display with high-visibility, impact-resistant glass, plus white or black theme selection. Easy-to-use graphic interface, can be customised with virtual call buttons or with a number keypad to call users when the relevant code is known. Access control function with activation of audio or audio/video module outputs and system actuators. Buttons can be customised for direct calls to the switchboard, commercial activities with corresponding logos, and to display welcome messages. It has a Wiegand output for interfacing with access control systems, an RFID reader for activating an opening with keys or Comelit cards, and a Bluetooth connection. Consists of audio/video module art. UT8020, Touch module art. UT9270, frame art. UT9163 and flush-mounted box art. 3110/3A. 10 mm protrusion from the wall. Dimensions (L x H x D): 125.5x317.5x55 mm.

ITEMS

IX3453

ENTRANCE PANEL STEELTOUCH 8. SIMPLEBUS 1

Flush-mounted audio/video entrance panel with 8" touch-screen module for Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Twilight sensor for touch-screen backlighting management during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming. 8" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activating audio or audio/video unit outputs and system actuators using Comelit keys or cards. Fitted with micro-SD card for relay configuration backup. User-friendly graphical interface, which can be customised with virtual call buttons or a numeric keypad to call the user once you know the code. You can also customise buttons for direct calls to the switchboard, business activities with related logos, and view welcome messages. Flush-mounted box supplied. Entrance panel dimensions (LxHxD): 182x342x56 mm.

IX3454

ENTRANCE PANEL STEELTOUCH 8. VIP

Flush-mounted entrance panel (fitted level with the wall) for IP system (ViP), made of AISI 316 stainless steel, 8" capacitive touch-screen with high visibility, theme selection (white or black), impact-proof glass and twilight sensor for backlighting management during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 160° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for people with disabilities, assistance request can be activated via programming. Approved to IK08. Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activating audio or audio/video unit outputs and system actuators using Comelit keys or cards. Fitted with micro-SD card for relay configuration backup. User-friendly graphical interface, which can be customised with virtual call buttons or a numeric keypad to call the user once you know the code. You can also customise buttons for direct calls to the switchboard, business activities with related logos, and view welcome messages. Fully configurable with the ViP Manager software, it is compatible with all ViP system functions and products. It allows remote updating of the name directory through the dedicated gateway art. 1456B. Flush-mounted box art. 3462/6 supplied, compatible with 3one6 series. Entrance panel dimensions (LxHxD): 182x342x3 mm.

IX3454S

SURF-MNT ENTRANCE PANEL STEELTOUCH 8.VIP

Surface-mounted entrance panel for IP system (ViP), made of AISI 316 stainless steel, 8" capacitive touch-screen with high visibility, theme selection (white or black), impact-proof glass and twilight sensor for backlighting management during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 160° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for people with disabilities, assistance request can be activated via programming. Approved to IK08. Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activating audio or audio/video unit outputs and system actuators using Comelit keys or cards. Fitted with micro-SD card for relay configuration backup. User-friendly graphical interface, which can be customised with virtual call buttons or a numeric keypad to call the user once you know the code. You can also customise buttons for direct calls to the switchboard, business activities with related logos, and view welcome messages. Fully configurable with the ViP Manager software, it is compatible with all ViP system functions and products. It allows remote updating of the name directory through the dedicated gateway art. 1456B. Flush-mounted box art. 3462/6 supplied, compatible with 3one6 series. Entrance panel dimensions (LxHxD): 182x342x56 mm.

IX1090

ENTRANCE PANEL STEELTOUCH 5. SIMPLEBUS 1

Flush-mounted audio/video entrance panel with 5" touch-screen module for Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C.

Twilight sensor for touch-screen backlighting management during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming.

5" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activating audio or audio/video unit outputs and system actuators using Comelit keys or cards.

Fitted with micro-SD card for relay configuration backup. User-friendly graphical interface, which can be customised with virtual call buttons or a numeric keypad to call the user once you know the code. You can also customise buttons for direct calls to the switchboard, business activities with related logos, and view welcome messages.

Flush-mounted box supplied. Dimensions (LxHxD): 150 x 369 x 56 mm.

IX2090

ENTRANCE PANEL STEELTOUCH 5. SIMPLEBUS 2

Flush-mounted audio/video entrance panel with 5" touch-screen module for Simplebus 2 system. To be used in systems with power supply unit art. 1210 / 1210A.

Twilight sensor for touch-screen backlighting management during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming.

3ONE6 - SINGLE-UNIT AUDIO/VIDEO ENTRANCE PANEL IN STAINLESS STEEL

ITEMS

3451AS

STAINLESS STEEL AUDIO ENTRANCE PANEL, 316 SENSE. SIMPLEBUS 1

Flush-mounted entrance panel in AISI 316 stainless steel fitted level with the wall. Approved to IK08. Complete with LCD graphic display and 15 buttons integrated into the plate, with no mechanical movement. Also functions as electronic key code. It can be used to customise an initial welcome message and can operate with a dual user interface language. Equipped with RFID reader for local door lock control and additional relay for various uses. It can be used in conjunction with Simplekey electronic keys for automatic updating of the names in the directory. Fully configurable using software art. 1249B (included, with USB connection cable) via a USB or RS485 port, locally on the digital module itself or - thanks to the integrated web server - remotely via Ethernet port connection. It is compatible with all Simplebus 1 system functions and products. Complete with unit art. 1622 for audio/door lock management and flush-mounted box with concealed fixing screws. Entrance panel dimensions (LxHxD): 342x182x4 mm.

3451S

STAINLESS STEEL AUDIO/VIDEO ENTRANCE PANEL, 316 SENSE. SIMPLEBUS 1

Flush-mounted entrance panel in AISI 316 stainless steel fitted level with the wall. Approved to IK08. Complete with LCD graphic display and 15 buttons integrated into the plate, with no mechanical movement. Alphanumeric keypad with Braille script. Also functions as electronic key code. It can be used to customise an initial welcome message and can operate with a dual user interface language. Equipped with RFID reader for local door lock control and additional relay for various uses. It can be used in conjunction with Simplekey electronic keys for automatic updating of the names in the directory. Fully configurable using software art. 1249B (included, with USB connection cable) via a USB or RS485 port, locally on the digital module itself or - thanks to the integrated web server - remotely via Ethernet port connection. It is compatible with all Simplebus 1 system functions and products. Complete with unit art. 4680C for audio/video/door lock management and flush-mounted box with concealed fixing screws. Entrance panel dimensions (LxHxD): 342x182x4 mm.

3452HD

316 SENSE HD SERIES A/V ENTRANCE PANEL. VIP

Flush-mounted entrance panel in AISI 316 stainless steel fitted level with the wall. Approved to IK08. Complete with LCD graphic display and 15 buttons integrated into the plate, with no mechanical movement. Also functions as electronic key code. It can be used to customise an initial welcome message and can operate with a dual user interface language. Fitted with RFID reader for local door lock control, an additional relay for various uses and proximity and brightness sensors for optimal operational management. Complete with audio/video unit art. 4682HD compatible with H.264 video format and flush-mounted box with concealed fixing screws. Entrance panel dimensions (LxHxD): 342x182x4 mm.

ACCESSORIES

3458

ENTRANCE PANEL 316 ACCESS CONTROL MODULE

Flush-mount accessory in AISI 316 stainless steel fitted level with the wall for housing an access control module. Can be used in combination with all entrance panels in the 3ONE6 range. Entrance panel dimensions (LxHxD): 88x182x4 mm

3460/6

FLUSH-MOUNTED BOX 3ONE6 ANALOG, TOUCH, SENSE

Steel flush-mounted box for 3ONE6 ANALOG, 3ONE6 TOUCH (art. 3453S, 3453S/A, 3454HD/A), 3ONE6 SENSE (art. 3451S, 3451AS, 3452HD) entrance panels. Dimensions (LxHxD): 164x323x56 mm

3462/6

SURFACE-MOUNTED HOUSING 3ONE6 ANALOG, TOUCH, SENSE

Surface-mounted housing in AISI 316 stainless steel for 3ONE6 ANALOG, 3ONE6 TOUCH (art. 3453S, 3453S/A, 3454HD/A), 3ONE6 SENSE (art. 3451S, 3451AS, 3452HD) entrance panels. Dimensions (LxHxD): 180x340x56 mm.

1596B

POWER SUPPLY UNIT 100-240 VAC/ 33 VDC, 60 W. PSE CERTIFIED

Power supply unit with 110-240V primary and 33 VDC / 1.8A continuous output for 316 Touch entrance panel art. 3454. Equipped with internal protection against current overload and short circuits. Dimensions: 118.09x92.59x60.5 mm (7 DIN modules). PSE certified.

3459

CANOPY WITH LEDS FOR 316 SENSE ENTRANCE PANEL

Canopy for illumination of entrance panels art. 3451S, 3451AS and 3452HD in AISI 316 stainless steel with mirror finish. Lighting controlled by integrated proximity sensor and light sensors already integrated in 3ONE6 SENSE series entrance panels. Canopy overhang 45 mm, thickness 6 mm, width 183 mm.

1595

120-230 VAC / 33 VDC POWER SUPPLY UNIT

Power supply unit with 120-230 VAC input, 33 VDC output of 500 mA in continuous operation and 1.2A inrush current, for outdoor entrance panels. Equipped with internal protection against current overload and short circuits. Dimensions: 71.7x90x62 mm (4 DIN modules).

Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.</p>	
	EU1010VC	<p>SIMPLEBUS1 AUDIO UNIT REMOTE CAMERA Audio unit to be used for the installation of Comelit and/or third-party single-unit entrance panels designed for the connection of an analogue remote camera with PAL standard, Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.</p>	
	EU1010	<p>SIMPLEBUS1 AUDIO UNIT Audio unit for use with Comelit and/or third-party single-unit entrance panels, Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.</p>	
	EU8020	<p>VIP AUDIO/VIDEO UNIT Audio/video unit for use with Comelit and/or third-party single-unit entrance panels, IP system (ViP). The audio-video unit is powered via standard POE, art. 1440A or art. 1595 (see technical manual). Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 160° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for people with disabilities, assistance request can be activated via programming. It has 4 inputs for smart buttons art. 3061S or 1 input for connecting conventional buttons. Fully configurable with the ViP Manager software, it is compatible with all ViP system functions and products. Dimensions (LxHxD): 110 x 55.5 x 31 mm.</p>	
	EU8010	<p>VIP AUDIO UNIT Audio unit for use with Comelit and/or third-party single-unit entrance panels, IP system (ViP). EU1250AM

FULL METAL FRONT PANEL AUDIO UNIT ADAPTER
Accessory for mounting EU series audio units on single-unit entrance panels with "full metal" look.

EU1250VM

FULL METAL FRONT PANEL VIDEO UNIT ADAPTER
Accessory for mounting EU series audio/video units to single-unit entrance panels with "full metal" look.

EU1250A

AUDIO UNIT ADAPTER
Accessory for mounting EU series audio units on single-unit entrance panels.

EU1250V

VIDEO UNIT ADAPTER
Adapter for mounting EU series audio/video units on single-unit entrance panels.

EU1250XV

METAL VIDEO UNIT ADAPTER
Accessory to be used when installing EU series audio/video units on existing front panels.

EU1250

AUDIO UNIT ADHESIVE ADAPTER
Accessory to be used when installing EU series audio/video units on existing front panels. To be fixed behind the existing grille using the included adhesive tape.

3061MU

MASTER BUTTON WITH NAMEPLATE. EU GROUPS
Master button for use in both Simplebus and ViP systems. To be used in systems with EU series units. It consists of a nameplate holder and a mechanical stainless steel call button. The brightness level of the white LED can be adjusted on the back. Up to 3 slave buttons art. 3061S can be connected to the button using the supplied cable. Installation should take place on 2.5 mm thick metal front panels.

3061S

SLAVE BUTTON WITH NAMEPLATE
Slave button for use in both Simplebus and ViP systems, consisting of a nameplate and a call pushbutton in steel. The brightness level of the white LED can be adjusted on the back. Installation should take place on 2.5 mm thick metal plates.

VANDALCOM - MODULAR AUDIO/VIDEO ENTRANCE PANEL IN VANDAL-PROOF STEEL

COMPONENTS

SURFACE-MOUNTED STAINLESS STEEL HOUSING, VANDALCOM SERIES

Code	No. modules	Dimensions (LxHxD)
3159/1	1	142x142x58 mm
3159/2	2	142x254x58 mm
3159/3	3	142x366x58 mm

VANDALCOM SERIES FLUSH-MOUNTED BOX

Code	No. modules	Dimensions (LxHxD)
3160/1	1	130x130x58 mm
3160/2	2	130x242x58 mm
3160/3	3	130x354x58 mm

VANDALCOM SERIES FRAME. DARK GREY COLOUR

Made in die-cast aluminium and coated with special weather-resistant powder paint. Dark grey colour.

Code	No. modules	Dimensions (LxHxD)
3161/1	1	143x143x18 mm
3161/2	2	143x255x18 mm
3161/3	3	143x367x18 mm

VANDALCOM SERIES FRAME. STEEL GREY COLOUR

Code	No. modules	Dimensions (LxHxD)
3161/1A	1	143x143x18 mm
3161/2A	2	143x255x18 mm
3161/3A	3	143x367x18 mm

MODULE FOR VANDALCOM SERIES AUDIO UNITS

Made using a double 2.5 mm 316 stainless steel plate. To be equipped with an audio unit depending on the cabling system used.

Code	No. of Buttons	Dimensions (LxHxD)
3262S/0	0	106x106x5.6 mm
3262S/1	1	106x106x5.6 mm
3262S/2	2	106x106x5.6 mm

MODULE FOR VANDALCOM SERIES AUDIO/VIDEO UNITS

Made using a double 2.5 mm 316 stainless steel plate. For use with audio/video unit depending on the wiring system used.

Code	No. of Buttons	Dimensions (LxHxD)
3268S/0	0	106x106x5.6 mm
3268S/1	1	106x106x5.6 mm
3268S/2	2	106x106x5.6 mm

4-BUTTON MODULE, VANDALCOM SERIES

Made using a double 2.5 mm 316 stainless steel plate, with 4 buttons. Dimensions: 106x106x30 mm

3064S

DIGITAL CALL MODULE, VANDALCOM SERIES

Made using a double 2.5 mm 316 stainless steel plate, complete with keypad with 12 backlit buttons, 16-character alphanumeric display for viewing call codes and user interaction messages (busy, etc.). Also functions as an electronic key code device with a possible 1000 different 6-digit codes. Dimensions: 106x106x56 mm. Only compatible with art. 4680, 4680C, 4681, 4682HC, 4682HD, 1621, 1621VC, 1622, 1622VC, 1682 and 1682HVC in combination with front panels art. 3262S/x and 3268S/x.

3070S

DIGITAL DIRECTORY MODULE, VANDALCOM SERIES

Made using a double 2.5 mm 316 stainless steel plate, complete with 4 backlit buttons and 32-character alphanumeric display. Stores up to 1000 user names. Name scrolling is carried out using 2 search buttons. Once the desired name is displayed, simply press the call button. Dimensions: 106x106x56 mm. Only compatible with art. 4680, 4680C, 4681, 4682HC, 1621, 1621VC, 1622, 1622VC, 1682 and 1682HVC in combination with front panels art. 3262S/x and 3268S/x.

3072S

STEEL BLANK MODULE, VANDALCOM SERIES

Made using double 2.5 mm stainless steel plate. Dimensions: 106x106x9 mm.

3176S

	3178S	PTT MODULE, VANDALCOM SERIES Module using a double 2.5 mm 316 stainless steel plate, preset for PTT key. Dimensions: 106x106x9 mm	 
	3179S	MODULE FOR USE WITH SIMPLEKEY READER, VANDALCOM SERIES Module using a double 2.5 mm 316 stainless steel plate, designed to house SimpleKey units SK9000I-SK9001I-SK9030I. Compatible with Comelit PAC panel-mounted GS3 readers. Dimensions: 106x106x9 mm	 
	3186S	INDICATOR/NAMEPLATE MODULE, VANDALCOM SERIES Made using double 2.5 mm 316 stainless steel plate. Complete with white card for general information (house no., etc.) and pre-printed card with space for 12 user names. Dimensions: 106x106x9 mm.	 
	3188SB	VANDALCOM SERIES ELECTRONIC KEY Made using double 2.5 mm 316 stainless steel plate. Complete with backlit keypad. Features 300 different 8-digit codes that can be programmed from the keypad to control two relays (10A), as well as a confirm request buzzer and relay activation LED. Relay closure time can be set from the keypad. Dimensions: 106x106x56 mm.	 
	1172B	LED BULB FOR EXTERNAL UNITS LED bulb for nameplate lighting.	 
	1621	SIMPLEBUS AUDIO UNIT FOR 2-WIRE SYSTEM WITH LED FOR IKALL SERIES Audio speaker unit for 2-wire systems, complete with terminal block and Echo-cancelling audio management system, watertight loudspeaker and electret microphone; speaker volume control on front of unit. Complete with microprocessor and DIP SWITCH with 8 positions for programming user calls. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Timed lock-release and door open indication inputs. Compatible with power supply unit art. 1210. Dimensions: 102x55x38 mm.	
	1621VC	AUDIO UNIT FOR REMOTE CAMERA 2-WIRE IKALL Audio unit of the Simplebus 2 system designed for the connection of an analogue remote camera with PAL standard. To be used in systems with power supply unit art. 1210 / 1210A. Complete with terminal block and audio management with echo-cancelling, watertight loudspeaker and electret microphone; loudspeaker volume can be adjusted from the front. Equipped with microprocessor and 8-position DIP SWITCH for programming calls to users. Built-in electronic lock-release function (3A), plus C, NC, NO 10A relay contacts. Timed lock-release and door open indication inputs. Dimensions: 102x55x38 mm.	
	1622	SIMPLEBUS AUDIO UNIT FOR IKALL SERIES Audio speaker unit for Simplebus 1 system, complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone; speaker volume control on front of unit. Complete with microprocessor and DIP SWITCH with 8 positions for programming user calls. 33 VDC power supply via special power supply unit art. 1595. On-board electronic lock-release function (3A), plus a 10A relay. Dimensions: 102x55x38 mm. It can be used for the call addressing of up to 120,000 users. Timed lock-release and door open indication inputs.	
	1622VC	AUDIO UNIT FOR REMOTE CAMERA 2-WIRE IKALL Module that allows modulation and transmission of the colour video signal on the riser. On input it has the composite video signal of a colour video camera. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. 33 VDC power supply via special power supply unit art. 1595. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Dimensions: 102x55x38 mm. Compatible with all Simplebus 2 functions and products. It can be used for the call addressing of up to 120,000 users. Timed lock-release and door open indication inputs.	
	1682	VIP SYSTEM AUDIO UNIT FOR IKALL SERIES Audio speaker unit for VIP system, complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone; speaker volume control on front of unit. For installation in audio modules with 0 - 1 - 2 buttons. Dimensions: 102x55x38 mm.	

	4680C	2-WIRE AUDIO/VIDEO UNIT Audio/video unit for Simplebus 2 system (with mixer art. 4888C) with terminal block complete with front-adjustable wide-angle 1.3" colour video camera and LED camera illumination. Complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone; speaker volume control on front of unit. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. Audio-visual indications for disabled individuals assistance request can be activated via programming. 33 VDC power supply via special power supply unit art. 1595. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Dimensions: 102x55x38 mm. It can be used for the call addressing of up to 120,000 users. Timed lock-release input and door open indication.	
	4681	2-WIRE AUDIO/VIDEO UNIT Audio/video colour unit for 2-wire system with terminal block complete with colour video camera and LED camera illumination. Complete with terminal block and audio management with echo-cancelling, watertight loudspeaker and electret microphone; loudspeaker volume can be adjusted from the front. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. Audio-visual indications for disabled individuals assistance request can be activated via programming. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Timed lock-release input and door open indication. Compatible with power supply unit art. 1210. Dimensions: 102x55x43 mm	
	4682HD	HD IP (VIP) AUDIO/VIDEO UNIT Audio/video unit for VIP system with terminal block, complete with colour video camera. Maximum resolution 1280x720 pixel. View angle 110° (H) - 80° (V). LED camera lighting. Complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone. Speaker volume adjustable with software programming. Audio-visual indications for disabled individuals assistance request can be activated via programming. The audio/video unit is powered by standard POE, but if necessary it can be powered by the 33 VDC power supply unit art. 1595. Compatible with H.264 video format. Dimensions: 102x55x38 mm.	
	1219	NAMEPLATE LABEL SHEETS FOR VANDALCOM ENTRANCE PANEL The kit contains 10 sheets of adhesive labels for nameplates, 7 sheets for info modules.	 
	1235A	SOFTWARE FOR PRINTING NAMEPLATE LABELS Dedicated software for the creation and printing of nameplate and information labels for Ikall, Vandalcom, Quadra and 316 Analog entrance panels. Requires use of adhesive labels art. 1217, 1218, 1219 or art. 1220. You can download this software for free from the Comelit website.

COMPONENTS

IKALL SERIES SIMPLEBUS 2 AUDIO UNIT WITH LED

Audio unit for Simplebus 2 system, complete with terminal block and Echo-cancelling audio management system, watertight loudspeaker and electret microphone; speaker volume control on front of unit. Complete with microprocessor and DIP SWITCH with 8 positions for programming user calls. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Timed lock-release and door open indication inputs. Compatible with power supply unit art. 1210. Dimensions: 102x55x38 mm.

1621

REMOTE CAMERA AUDIO UNIT, IKALL SIMPLEBUS 2

Audio unit for the Simplebus 2 system designed for the connection of an analogue remote camera with PAL standard. To be used in systems with power supply unit art. 1210 / 1210A. Complete with terminal block and audio management with echo-cancelling, watertight loudspeaker and electret microphone; loudspeaker volume can be adjusted from the front. Equipped with microprocessor and 8-position DIP SWITCH for programming calls to users. Built-in electronic lock-release function (3A), plus C, NC, NO 10A relay contacts. Timed lock-release and door open indication inputs. Dimensions: 102x55x38 mm.

1621VC

IKALL REMOTE CAMERA AUDIO MODULE UNIT, SIMPLEBUS 1

Audio unit that allows modulation and transmission of the colour video signal on the riser. On input it has the composite video signal of a colour video camera. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. 33 VDC power supply via special power supply unit art. 1595. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Dimensions: 102x55x38 mm. Compatible with all Simplebus 2 functions and products. It can be used for the call addressing of up to 120,000 users. Timed lock-release and door open indication inputs.

1622VC

ViP SYSTEM AUDIO UNIT FOR IKALL SERIES

Audio speaker unit for ViP system, complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone; speaker volume control on front of unit. For installation in audio modules with 0 - 1 - 2 buttons. Dimensions: 102x55x38 mm.

1682

4680C	<p>AUDIO/VIDEO UNIT SIMPLEBUS 1 Simplebus 1 system audio/video unit (with mixer art. 4888C) with terminal block complete with front-adjustable wide-angle 1.3" colour video camera and LED camera illumination. Complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone; speaker volume control on front of unit. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. Audio-visual indications for disabled individuals assistance request can be activated via programming. 33 VDC power supply via special power supply unit art. 1595. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Dimensions: 102x55x38 mm. It can be used for the call addressing of up to 120,000 users. Timed lock-release input and door open indication.</p>	
4681	<p>AUDIO/VIDEO UNIT SIMPLEBUS 2 Audio/video colour unit for Simplebus 2 system with terminal block complete with colour video camera and LED camera illumination. Complete with terminal block and audio management with echo-cancelling, watertight loudspeaker and electret microphone; loudspeaker volume can be adjusted from the front. Complete with microprocessor and DIP SWITCH with 8 positions for programming calls to users. Audio-visual indications for disabled individuals assistance request can be activated via programming. On-board electronic lock-release function (3A), plus C, NC, NO contacts for 10A relay. Timed lock-release input and door open indication. Compatible with power supply unit art. 1210. Dimensions: 102x55x43 mm</p>	
4682HD	<p>HD IP (VIP) AUDIO/VIDEO UNIT Audio/video unit for VIP system with terminal block, complete with colour video camera. Maximum resolution 1280x720 pixel. View angle 110° (H) - 80° (V). LED camera lighting. Complete with terminal block and digital audio management system with Echo-cancelling, watertight loudspeaker and electret microphone. Speaker volume adjustable with software programming. Audio-visual indications for disabled individuals assistance request can be activated via programming. The audio/video unit is powered by standard POE, but if necessary it can be powered by the 33 VDC power supply unit art. 1595. Compatible with H.264 video format. Dimensions: 102x55x38 mm.</p>	
1172B	<p>LED BULB FOR EXTERNAL UNITS LED bulb for nameplate lighting.</p>	
3063D	<p>8-BUTTON MODULE SIMPLEBUS 1-2/VIP FOR SINGLE-PLATE PANEL Button management module. Works in conjunction with audio/video modules or audio module. Allows management of 8 buttons. Dimensions: 45x55x30 mm.</p>	
3063U	<p>8-BUTTON INTERFACE SIMPLEBUS 1-2/VIP FOR SINGLE-PLATE PANEL Interface for the management of 8 buttons, for use with single-plate outdoor entrance panels. Compatible with all systems. Works in conjunction with audio or audio/video modules for the Ultra series entrance panel. Complete with 475 mm long cable with connectors for connection to the audio or audio/video module, or other button interfaces. Cable connection via spring-loaded terminal block. Dimensions (LxHxD): 74 x 42 x 18 mm.</p>

Operating humidity (max. % RH)	25 - 95

VISTO

ITEMS

 **VS8101A** **VISTO ETHERNET EXTERNAL UNIT. VIP SYSTEM**
Smart surface-mounted doorbell from the Visto series for the ViP system. Complete with a call button, wide-angle camera, loudspeaker and microphone. Power supply via ViP or standard PoE system. Colour: Dark graphite RAL9011. Dimensions (LxHxD): 47 x 136 x 32 mm. 

 **VS8111** **VISTO WI-FI EXTERNAL UNIT. VIP SYSTEM**
Wi-Fi video entry external unit for use in Comelit ViP systems, complete with adapter allowing use of the power supply for the existing bell (12-20 VAC or 12-33 VDC) and allowing interfacing with the existing bell. Depending on the system configuration, you can receive video entry phone calls on ViP monitors or directly on smartphones and tablets via the Comelit app. With the Comelit app, you are always in touch with what is going on at your home, whether you are in town or even in another country. 

ACCESSORIES

 **3525** **LEFT/RIGHT ADJUSTABLE BRACKET FOR VISTO**
Left/right adjustable bracket for smart Visto doorbell, 20° horizontal tilt angle, plastic, colour silver mist RAL9006. 

 **3526** **UP/DOWN ADJUSTABLE BRACKET FOR VISTO**
Up/down adjustable bracket for smart Visto doorbell, 10° vertical tilt angle, plastic, colour silver mist RAL9006. 

3534

24 VCC POWER SUPPLY UNIT WITH EU-UK-USA PLUGS
Power supply unit for smart Visto doorbell, input voltage 110-240 VAC, output voltage 24 VDC. Interchangeable plugs for the European, British and American markets supplied. 

FEATURES AND FUNCTIONS

Type of finish	Plastic
Audio/video system	Yes
Surface mounting	Yes
Lens size (mm)	1.52 mm
Diagonal angle of view (°)	170
Minimum colour lighting (lux)	2
Video encoding	H.264
Call with buttons	Yes
Total buttons	1
Operating temperature (°C)	5 -40
Operating humidity RH (%)	0 - 75

INTRODUCTION

VIDEO DOOR ENTRY

COMELIT APP

The Comelit App is free to download and lets you answer video door entry calls, as well as communicate with other monitors or devices where the app is installed. It also allows you to manage any indoor or outdoor cameras installed in your home, actuators and recorded video clips.

QUADRA - SINGLE-UNIT AUDIO/VIDEO ENTRANCE PANEL IN ALUMINIUM

ITEMS

4893M **QUADRA VIDEO KIT EXTERNAL UNIT. SIMPLEBUS 2**
Surface-mounted door entry monitor external unit, Quadra series, for Simplebus 2 system. Die-cast aluminium front panel, wide-angle colour video camera and single LED for night-time lighting. Mechanical buttons with the option of setting 1 to 4 call buttons via DIP-switch. Indicator LED for call sent, lock-release activated, audio activated and system busy. Loudspeaker volume adjustment and audio balancing. Bus line power supply. Dimensions: 95x195x28 mm.

4899M **QUADRA EXTERNAL UNIT WITH BUTTONS. VIP**
Quadra series surface-mounted door entry monitor external unit. Die-cast aluminium front panel, colour video camera and a single LED for night-time lighting. Mechanical keys with option of setting 1 to 4 call keys via dip switch. Indicator LED for call sent, lock-release activated, audio activated and system busy. Loudspeaker volume adjustment and audio balancing. POE power supply. Dimensions (LxHxD): 95x195x28 mm.

ACCESSORIES

QA9210 **2 DOUBLE-HEIGHT BUTTONS FOR QUADRA ENTRANCE PANEL**
Double-height buttons for use with the Quadra series entrance panel. Pack of 2 units.

QA9211 **4 SINGLE BUTTONS FOR QUADRA ENTRANCE PANEL**
Single button for use with the Quadra series entrance panel. Pack of 4 units.

QA9213 **1 LARGE BUTTON FOR QUADRA ENTRANCE PANEL**
Large button for use with the Quadra series entrance panel. Pack of 1 unit.

4791A **ADAPTER PLATE FOR CIAO-QUADRA**
Plate used to install Ciao and Quadra external units on Comelit, Bticino and Urmet 1- and 2-module flush-mounted boxes. Dimensions (LxHxD): 137x236x2.5 mm.

4792 **RAIN SHIELD FOR QUADRA ENTRANCE PANEL**
Coated aluminium rain shield for Quadra entrance panel, grey colour. Dimensions (LxHxD): 99 x 210 x 41 mm.

4793MB **BLACK FACEPLATE FOR QUADRA WITH BUTTONS**
Black faceplate for Quadra entrance panel with mechanical buttons.

4793MC **CORTEN FACEPLATE FOR QUADRA WITH BUTTONS**
Corten colour faceplate for Quadra entrance panel with mechanical buttons.

4793MA **ALUMINIUM FACEPLATE FOR QUADRA WITH BUTTONS**
Aluminium colour faceplate for Quadra entrance panel with mechanical buttons.

1209 **VIDEO KIT POWER SUPPLY UNIT SIMPLEBUS 2**
33 VDC power supply unit for 2-wire KIT for direct connection of external unit and internal unit. Equipped with overload and short circuit protection. Input voltage 110-240 VAC. Dimensions: 106x62x89 mm (6 DIN modules).

1217A **NAMEPLATE LABEL SHEETS FOR QUADRA WITH BUTTONS**
The kit contains 10 sheets of adhesive labels for nameplates (7 for 1-button nameplates, 2 for 2-button nameplates, 1 for 4-button nameplates) for Quadra entrance panel with mechanical buttons.

1235A **SOFTWARE FOR PRINTING NAMEPLATE LABELS**
Dedicated software for the creation and printing of nameplate and information labels for Ikall, Vandalcom, Quadra and 316 Analog entrance panels. Requires use of adhesive labels art. 1217, 1218, 1219 or art. 1220. You can download this software for free from the Comelit website.

Material	Die-cast aluminium
Surface mounting	Yes
Rain protection (optional)	Yes
COMPATIBLE SYSTEMS	
Simplebus 2 audio/video kit with power supply unit art. 1209	Yes (4893M)
ViP	Yes (4899M)

HARDWARE SPECIFICATIONS

Call type	Buttons
Type of buttons	Mechanical
Number of buttons	1 to 4
Backlighting colour	White

ENVIRONMENTAL AND CONFORMITY SPECIFICATIONS

IP protection rating	IP54
IK anti-vandal protection rating	IK08
Operating temperature (°C)	25 - 55
Operating humidity (max. % RH)	25 - 95
Environmental class	III
Conformity and Certifications	RoHS II - 2011/65/EU (EN 50581:2012), EMC 2014/30/EU (EN 61000-6-1:2007, EN 61000-6-3:2007+A1:2011)

CIAO - SINGLE-UNIT EXPANDABLE AUDIO ENTRANCE PANEL

ITEMS

 **CA0061** **1-BUTTON CIAO ENTRANCE PANEL. 2-WIRE ANALOGUE**
Ciao series outdoor audio entrance panel for 2-wire analogue systems and designed for 1-call systems for kit art. KCA0061. Front panel in synthetic polymer, resistant to atmospheric agents (IP54 protection rating and paint with anti-UV treatment) and acts of vandalism (IK08 protection rating). Complete with call button art. CA9213. Supplied with a surface mounting bracket.

 **CA5100B** **1-2-BUTTON CIAO ENTRANCE PANEL. 4+N**
Ciao Series modular entrance panel with synthetic polymer front cover offering resistance to atmospheric agents (protection rating IP54 and coating with anti-UV treatment) and acts of vandalism (protection rating IK08); blue LED nameplate backlighting. Complete with call button art. CA9214. Supplied with a surface mounting bracket. Traditional 5-wire system.

 **CA2100B** **1/2/4/8-BUTTON CIAO ENTRANCE PANEL. SIMPLEBUS 2**
Ciao series outdoor audio entrance panel for Simplebus 2 system and designed for 1- to 8-call systems. Front panel in technopolymer, resistant to atmospheric agents (IP54 protection rating and paint with anti-UV treatment) and acts of vandalism (IK08 protection rating). Smart button programming function. Supplied with a surface mounting bracket. Buttons for configuration in 1, 2, 4 or 8 calls available to purchase separately. The entrance panel can be installed alongside (horizontally or vertically) button modules art. CA2200A, for up to 20 call buttons.

 **CA2200A** **2/4/8/16-BUTTON CIAO MODULE. SIMPLEBUS 2**
Ciao series button module for Simplebus 2 system. Front panel in technopolymer, resistant to atmospheric agents (IP54 protection rating and paint with anti-UV treatment) and acts of vandalism (IK08 protection rating). To be finished with 2/4/8/16 call buttons (art. CA9210, CA9211, CA9212 and 2 x CA9212 respectively), available to purchase separately. Supplied with a surface mounting bracket. Can be installed alongside (horizontally or vertically) up to 4 button modules. For use in conjunction with art. CA2100B.

ACCESSORIES

 **CA9190** **RAIN SHIELD FOR CIAO ENTRANCE PANEL**
Aluminium rain shield for Ciao entrance panel.

 **4791A** **ADAPTER PLATE FOR CIAO-QUADRA**
Plate used to install Ciao and Quadra external units on Comelit, Bticino and Urmet 1- and 2-module flush-mounted boxes. Dimensions (LxHxD): 137x236x2.5 mm.

 **CA9213** **1 LARGE BUTTON FOR CIAO ENTRANCE PANEL**
Large button for use with the Ciao series entrance panel.

 **CA9210** **2 DOUBLE-HEIGHT BUTTONS FOR CIAO ENTRANCE PANEL**
Double-height buttons for use with the Ciao series entrance panel. Pack of 2 units.

 **CA9211** **4 SINGLE BUTTONS FOR CIAO ENTRANCE PANEL**
Single button for use with the Ciao series entrance panel. Pack of 4 units.

 **CA9212** **4 DOUBLE BUTTONS FOR CIAO ENTRANCE PANEL**
Double button for use with the Ciao series entrance panel. Pack of 4 units.

 **CA9214** **BUTTON FOR ENTRANCE PANEL ART. CA5100B**
Rocker switch for use as a spare for Ciao series entrance panel art. CA5100B.

8" TOUCH MODULES

*The image is for illustration purposes only: product not for sale.

ITEMS

3455

8" TOUCH MODULE SIMPLEBUS 1-SIMPLEBUS 2 FOR IKALL UNITS

8" touchscreen module for Simplebus 1 and Simplebus 2 systems, S serial communication protocol for Ikall series audio and audio/video units, complete with fixing accessories for third-party entrance panels. 8" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activation of an opening using keys or Comelit cards. Fitted with micro-SD card for relay configuration backup. Dimensions (LxHxD): 155 x 212 x 48 mm.

3455U

8" TOUCH MODULE SIMPLEBUS 1-SIMPLEBUS 2 FOR ULTRA MODULES

8" touchscreen module for Simplebus 1 and Simplebus 2 systems, UDB serial communication protocol for Ultra series audio and audio/video modules, complete with fixing accessories for third-party entrance panels. 8" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activation of an opening using keys or Comelit cards. Fitted with micro-SD card for relay configuration backup. Automatic backlight regulation via the twilight sensor for the paired audio or audio/video module. Dimensions (LxHxD): 155 x 212 x 48 mm.

3456

8" TOUCH MODULE, VIP, FOR IKALL UNITS

8" touchscreen module for IP (ViP) systems, S serial communication protocol for Ikall series audio and audio/video units, complete with fixing accessories for third-party entrance panels. 8" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activation of an opening using keys or Comelit cards. Fitted with micro-SD card for relay configuration backup. Dimensions (LxHxD): 155 x 212 x 48 mm.

3456U

8" TOUCH MODULE, VIP, FOR ULTRA MODULES

8" touchscreen module for IP (ViP) systems, UDB serial communication protocol for Ultra series audio and audio/video modules, complete with fixing accessories for third-party entrance panels. 8" capacitive display with high visibility and impact-proof glass, plus theme selection (white or black). Has a Wiegand output for interfacing with access control systems and an output for connecting the Comelit SimpleKey control panel. Equipped with RFID reader for activation of an opening using keys or Comelit cards. Fitted with micro-SD card for relay configuration backup. Automatic backlight regulation via the twilight sensor for the paired audio or audio/video module. Dimensions (LxHxD): 155 x 212 x 48 mm.

EU SERIES UNITS

EU2020

SIMPLEBUS2 AUDIO/VIDEO UNIT

Audio/video unit for use with Comelit and/or third-party single-unit entrance panels, Simplebus 2 system. To be used in systems with power supply unit art. 1210 / 1210A. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU2020/4

SIMPLEBUS AUDIO/VIDEO UNIT, MAX. 4 USERS

Audio/video unit for up to 4 users, for use with Comelit and/or third-party single-unit entrance panels, Simplebus 2 system. To be used in systems with power supply unit art. 1210 / 1210A. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU2010VC

SIMPLEBUS2 AUDIO UNIT REMOTE CAMERA

Audio unit to be used for the installation of Comelit and/or third-party single-unit entrance panels designed for the connection of an analogue remote camera with PAL standard, Simplebus 2 system. To be used in systems with power supply unit art. 1210 / 1210A. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU2010

SIMPLEBUS2 AUDIO UNIT

Audio unit for use with Comelit and/or third-party single-unit entrance panels, Simplebus 2 system. To be used in systems with power supply unit art. 1210 / 1210A. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU1020

SIMPLEBUS1 AUDIO/VIDEO UNIT

Audio/video unit for use with Comelit and/or third-party single-unit entrance panels, Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 120° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU1010VC

SIMPLEBUS1 AUDIO UNIT REMOTE CAMERA

Audio unit to be used for the installation of Comelit and/or third-party single-unit entrance panels designed for the connection of an analogue remote camera with PAL standard, Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU1010

SIMPLEBUS1 AUDIO UNIT

Audio unit for use with Comelit and/or third-party single-unit entrance panels, Simplebus 1 system. To be used in systems with power supply unit art. 1595 and art. 4888C. Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for disabled individuals, assistance request can be activated via programming. It has 4 inputs for connecting conventional buttons or smart buttons art. 3061S. Adjustments and programming are accessible from the back of the module. Dimensions (LxHxD): 110 x 65 x 45 mm.

EU8020

VIP AUDIO/VIDEO UNIT

Audio/video unit for use with Comelit and/or third-party single-unit entrance panels, IP system (ViP). The audio-video unit is powered via standard POE, art. 1440A or art. 1595 (see technical manual). Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Wide-angle colour video camera (field of vision: 160° horizontal, 90° vertical) with LED for night-time lighting. Audio-visual indications for people with disabilities, assistance request can be activated via programming. It has 4 inputs for smart buttons art. 3061S or 1 input for connecting conventional buttons. Fully configurable with the ViP Manager software, it is compatible with all ViP system functions and products. Dimensions (LxHxD): 110 x 55.5 x 31 mm.

EU8010

VIP AUDIO UNIT

Audio unit for use with Comelit and/or third-party single-unit entrance panels, IP system (ViP). The audio-video unit is powered via standard POE, art. 1440A or art. 1595 (see technical manual). Easy to configure, thanks to the smart programming of call buttons. Twilight sensor for automatic nameplate backlighting power-off during daytime hours. Omnidirectional digital microphone for high-fidelity audio. Audio-visual indications for people with disabilities, assistance request can be activated via programming. It has 4 inputs for smart buttons art. 3061S or 1 input for connecting conventional buttons. Fully configurable with the ViP Manager software, it is compatible with all ViP system functions and products. Dimensions (LxHxD): 110 x 55.5 x 31 mm.

3061MU

MASTER BUTTON WITH NAMEPLATE. EU GROUPS

Master button for use in both Simplebus and ViP systems. To be used in systems with EU series units. It consists of a nameplate holder and a mechanical stainless steel call button. The brightness level of the white LED can be adjusted on the back. Up to 3 slave buttons art. 3061S can be connected to the button using the supplied cable. Installation should take place on 2.5 mm thick metal front panels.

EU1250AM

FULL METAL FRONT PANEL AUDIO UNIT ADAPTER

Accessory for mounting EU series audio units on single-unit entrance panels with "full metal" look.

EU1250VM

FULL METAL FRONT PANEL VIDEO UNIT ADAPTER

Accessory for mounting EU series audio/video units to single-unit entrance panels with "full metal" look.

EU1250A

AUDIO UNIT ADAPTER

Accessory for mounting EU series audio units on single-unit entrance panels.

EU1250V

VIDEO UNIT ADAPTER

Adapter for mounting EU series audio/video units on single-unit entrance panels.

EU1250XV

METAL VIDEO UNIT ADAPTER

Accessory to be used when installing EU series audio/video units on existing front panels.

EU1250

AUDIO UNIT ADHESIVE ADAPTER

Accessory to be used when installing EU series audio/video units on existing front panels. To be fixed behind the existing grille using the included adhesive tape.

3063U

8-BUTTON INTERFACE SIMPLEBUS 1-2/VIP FOR SINGLE-PLATE PANEL

Interface for the management of 8 buttons, for use with single-plate outdoor entrance panels. Compatible with all systems. Works in conjunction with audio or audio/video modules for the Ultra series entrance panel. Complete with 475 mm long cable with connectors for connection to the audio or audio/video module, or other button interfaces. Cable connection via spring-loaded terminal block. Dimensions (LxHxD): 74 x 42 x 18 mm.

MULTI-USER GATEWAY

MULTI-USER

1456

APARTMENT MASTER GATEWAY FOR VIP SYSTEM

"Master" gateway for sending video entry phone calls to Smartphones/Tablets on which the Comelit app has been installed and GSM or landline telephones, subject to a SIP provider service subscription. Requires an Internet connection with adequate bandwidth. The 1456 can also operate in the absence of a connected door entry monitor. Calls can be forwarded to a maximum of 15 different devices, depending on the device type and the bandwidth available for transmission. The gateway has 1 Ethernet port for connection to the VIP system network and 4 ports (including one POE) for connecting internal units and routers, two ports with selectable POE and one non-POE port. It also has a 40-56 VDC power supply input. Dimensions: 70x90x62 mm (4 DIN modules).

1456S

APARTMENT SLAVE GATEWAY FOR VIP SYSTEM

"Slave" gateway for sending video entry phone calls to Smartphones/Tablets on which the Comelit app has been installed and GSM or landline telephones, subject to a SIP provider service subscription. Requires an Internet connection with adequate bandwidth. The 1456S can only function when connected to a door entry monitor. Calls can be forwarded to a maximum of 15 different devices, depending on the device type and the bandwidth available for transmission. The gateway has 1 Ethernet port for connection to the VIP system network and 4 ports (including one POE) for connecting internal units and routers, two ports with selectable POE and one non-POE port. It also has a 40-56 VDC power supply input. Dimensions: 70x90x62 mm (4 DIN modules).

1456B

VIP SYSTEM GATEWAY

Ethernet interface allowing communication between the Comelit VIP door entry monitor system and a private network connected to other standard devices (PC, router, etc.). Equipped with an input for the connection of distributor art. 1440A and 4 outputs for the connection (depending on configuration) of Comelit VIP internal units or other general apparatus. It does not require a dedicated power supply and has a facility for an additional power supply to Comelit VIP internal units via art. 1441. Dimensions: 70x90x62 mm (4 DIN modules).

VIP INTERFACE FOR THIRD-PARTY TERMINALS

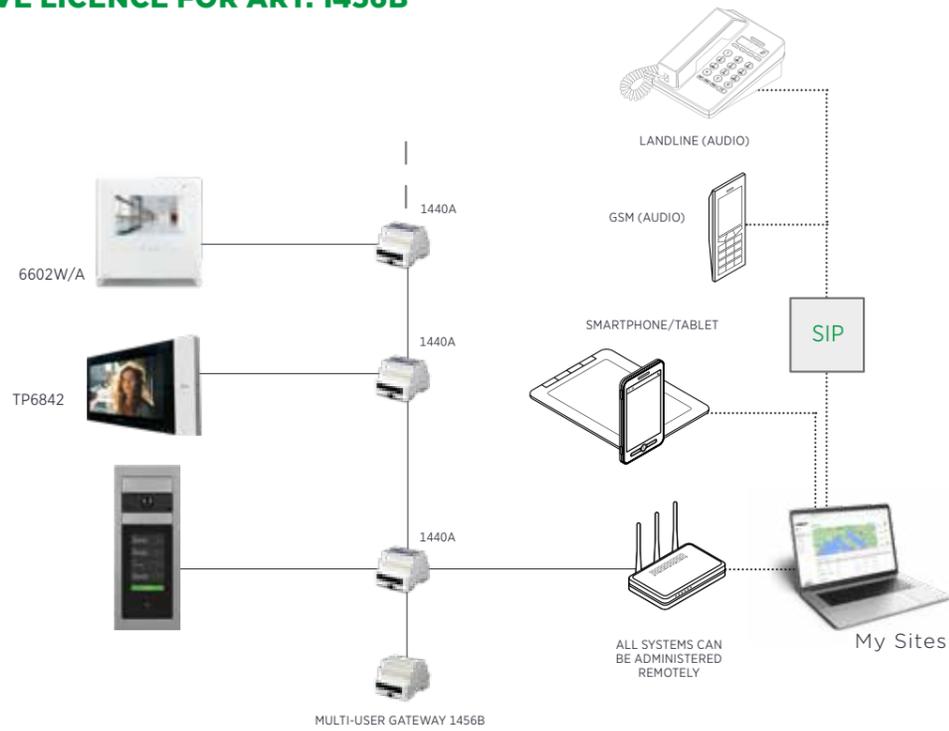

Ethernet interface allowing communication between the Comelit ViP door entry monitor system and a private network connected to other standard devices (PC, router, etc.). Equipped with an input for the connection of distributor art. 1440A and 4 outputs for the connection (depending on configuration) of third-party internal units or other general apparatus. It does not require a dedicated power supply and has a facility for an additional power supply to Comelit ViP internal units via art. 1441. Dimensions: 70x90x62 mm (4 DIN modules).

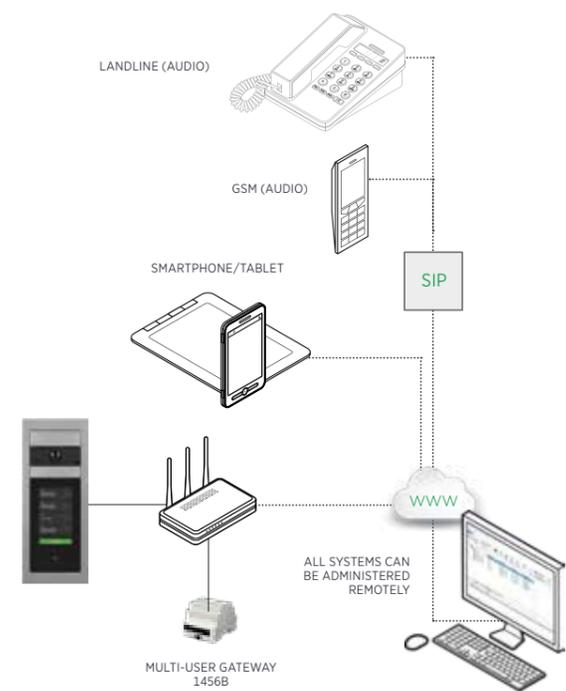

POWER SUPPLY UNITS AND ACCESSORIES (CONTINUED)

MULTI-USER GATEWAY INSTALLATION LAYOUTS: VIDEO ENTRY PHONE SYSTEM CONSISTING OF 1 DIGITAL AUDIO/VIDEO INPUT AND 1 AUDIO/VIDEO RISER

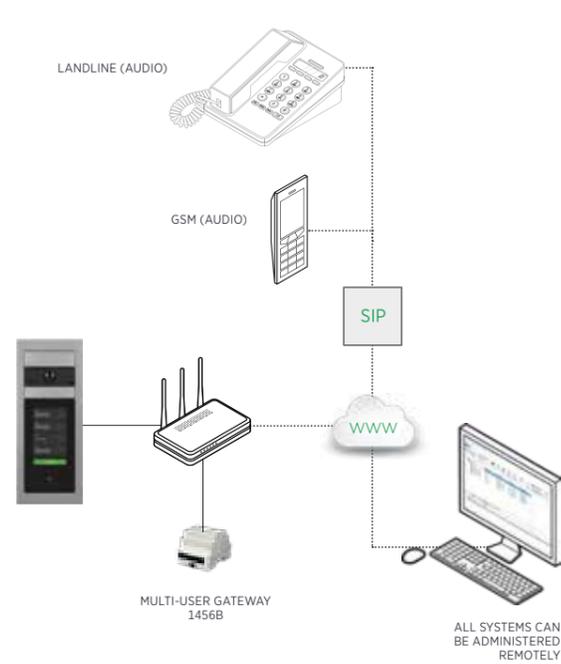

SLAVE LICENCE FOR ART. 1456B

MASTER LICENCE FOR ART. 1456B

PHONE LICENCE FOR ART. 1456B

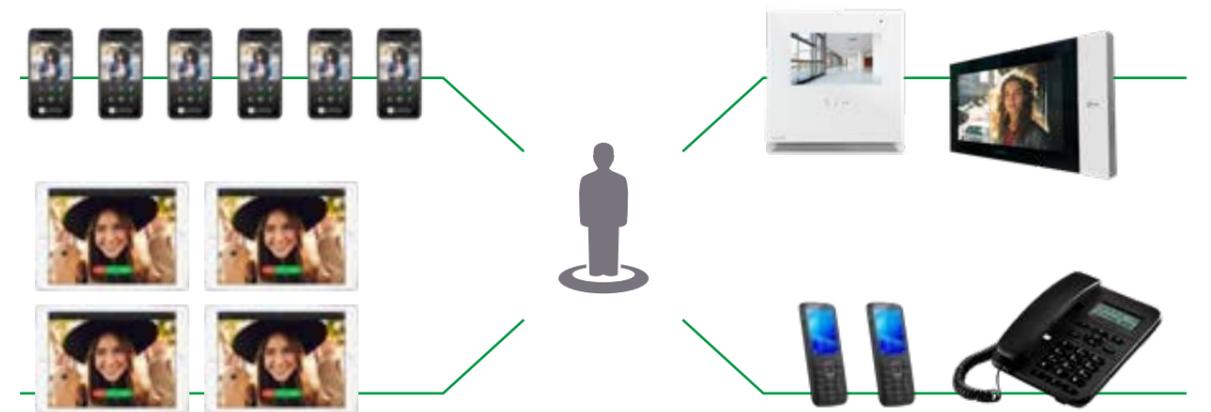

LICENCE FEATURES

3 TYPES OF LICENCE, 5 USER PACKAGES (in any combination)

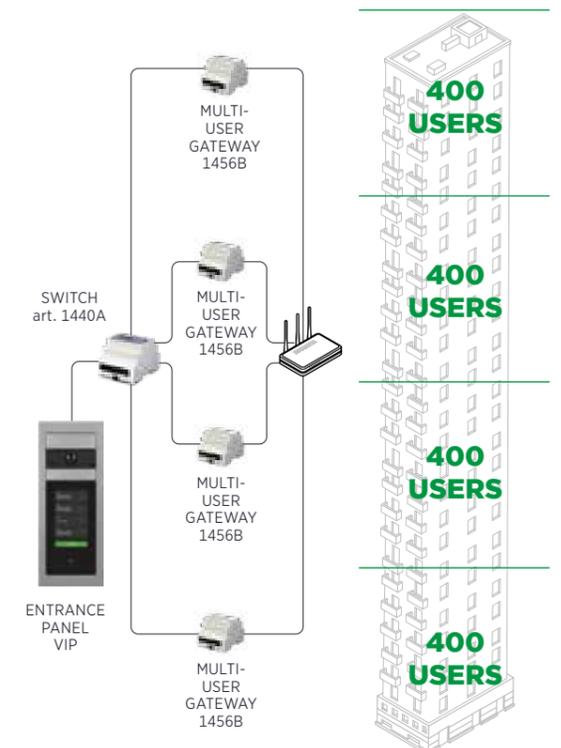

EVERY SINGLE USER CAN LINK UP TO 15 DEVICES

SCALABILITY

Each Multi-User Gateway can manage up to a maximum of 400 users. In the case of more than 400 users, more than one Gateway can be implemented. This can also be done subsequently to the initial installation.

POWER SUPPLY UNITS AND ACCESSORIES SIMPLEBUS SYSTEM

	1122/A	12-24 VDC-AC RELAY FOR GENERAL USE 12/24V DC-AC 10A relay for general use. Dimensions: 66x85x35 mm (4 DIN modules).	
	1184/A	TIMER 3"-180" Timer adjustable from 3 to 180 sec. used to control locks with permanent supply. 12V AC-DC power supply. Dimensions: 66x85x35 mm (4 DIN modules).	
	1200	230 VAC / 12 VAC / 15 VA TRANSFORMER Transformer with 230 VAC primary, 12 VAC/15 VA secondary for continuous use. Dimensions: 53x95x65 mm (3 DIN modules).	
	1209	VIDEO KIT POWER SUPPLY UNIT SIMPLEBUS 2 33 VDC power supply unit for 2-wire KIT for direct connection of external unit and internal unit. Equipped with overload and short circuit protection. Input voltage 110-240 VAC. Dimensions: 106x62x89 mm (6 DIN modules).	
	1210A	SIMPLEBUS 2 POWER SUPPLY UNIT Power supply unit with isolating transformer for audio or audio/video systems with 1 input compatible with all outdoor entrance panels featuring Simplebus 2 technology and 1 output for the connection of devices such as door-entry phones and door entry monitors featuring Simplebus 2 technology. Supplied with line termination terminal art. 1216. Dimensions: 143x62x90 mm (8 DIN modules).	
	1212/B	230 VAC / 20 VDC/ 14 VA POWER SUPPLY UNIT Power supply unit with 230 VAC input, 20 VDC / 14VA output. The power supply unit is fitted with an internal protection PTC element. Dimensions: 72x90x62 mm (4 DIN modules).	
	1214/2C	DISTRIBUTION TERMINAL. SIMPLEBUS 2 Line distribution terminal. The terminal is to connected to the riser to create branches to backplates or door-entry phones.	
	1216	LINE CLOSURE TERMINAL, SIMPLEBUS 2 Line closure terminal. Supplied with the mixer (4 pcs.). To be used to terminate the riser, in accordance with the indications in the technical documentation, to optimise signal distribution.	
	1224A	DIGITAL SWITCHING DEVICE. SIMPLEBUS 1 Switching device for audio or audio/video systems with 2 or more Simplebus 1 outdoor entrance panels. Complete with 2 dip-switches with 8 positions for setting the user range of the riser. 12 VAC and 22 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1229	ADDITIONAL RINGTONE Additional ringtone for call repetition, which can be controlled directly from terminals S- and S+ of the backplates and/or by the entry phones of Simplebus system, ViP and kit 8270. Surface-mounted or on domestic series 503 box. Dimensions: 110x75x29 mm.	

	1229A	ADDITIONAL RINGTONE. SIMPLEBUS 2 Surface-mounted accessory for additional ringtone for direct connection to 2-wire bus. Allows ringtone selection and adjustment of ringtone volume with privacy function, equipped with dip switches for user code programming, door bell input terminals and call repeat. Fitted with distribution terminal art. 1214/2C. Dimensions: 125x95x24 mm.	
	1236	POWER SUPPLY UNIT / AMPLIFIER FOR SIMPLEBUS 1 Module to be installed in the system section before the mixer or in audio systems to extend the number of users or accessories that can be connected to an entrance. 12 VAC or 20 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1237	SIMPLEBUS LINE PROTECTION Protection for Simplebus line	
	1252	USER EXPANSION INTERFACE. SIMPLEBUS 1 AND 2 An interface that allows up to 8 internal audio or audio/video units to ring simultaneously. Can be used in Simplebus 1 and Simplebus 2 systems. The interface does not supply power to the door entry monitors connected to the system. Dimensions: 6 DIN modules. 120-230 VAC power supply.	
	1256	ACTUATOR RELAY. SIMPLEBUS 1 AND 2 Intelligent device for controlling a relay on board (12-24 VAC/VDC / 10A max.) for general uses. This device can be used in all Simplebus systems. Power supply: 12 VAC or 20 VDC. Dimensions: 66x85x35 mm (4 DIN modules). Distribution terminal for video signal art. 1214/2C supplied.	
	1259C	MODULE FOR REMOTE CAMERAS. SIMPLEBUS 2 Module that allows the cyclical management of the video signals from up to 3 cameras on a door entry monitor via a dedicated key. 12 VAC or 20 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1404	DIGITAL SWITCHING DEVICE. SIMPLEBUS 2 Audio/video switching module for Simplebus 2 digital systems. To be used in systems with more than one entrance. Bus line power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1405	QUADRA DIGITAL SWITCHING DEVICE WITH 2 INPUTS. SIMPLEBUS 2 Audio/video switching module for audio/video kit systems. For use only in systems with a maximum of 2 entrances with Quadra series external unit. Bus line power supply. Dimensions: 35x90x58 mm (2 DIN modules).	
	1409	REMOTE CAMERA MODULE. SIMPLEBUS 2 Module for connecting remote cameras for Simplebus 2 digital 2-wire systems. Allows management of up to 3 colour video cameras in cyclical sequence from door entry monitors using a dedicated button. 12 VAC or 20 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1412	1IN-4OUT CONNECTION TERMINAL. SIMPLEBUS 2 Line distributor with 4 outputs. To be used in video systems for branch connection of monitors and/or door-entry phones. Dimensions: 34.5 x 40.5 x 20 mm

GUIDE TO VIDEO ENTRY TECHNOLOGY

NEW PRODUCTS

INTRODUCTION

VIDEO DOOR ENTRY

	1414	RISER DISTRIBUTOR MODULE. SIMPLEBUS 2 The module is used to branch a second riser from the outgoing BUS line from the mixer. It can also act as line protection (by default this function is not active). The device can be used on systems with Simplebus 2 wiring and, as it is powered by the 2-wire bus, it does not need any additional power supply. A maximum of 100 users can be connected to each mixer art. 4888 or art. 4888C, regardless of the number of art. 1414 modules used.	
	1415	DISTRIBUTOR MODULE + PROTECTION LINE. SIMPLEBUS 2 The module is used to create branches for up to 4 internal units on the riser (with a different address for each output) and also acts as a line protection, isolating the branches in the event of power surges or short circuit. The device can be used on systems with Simplebus 2 wiring and, as it is powered by the 2-wire bus, it does not need any additional power supply. A maximum of 100 users can be connected to each mixer art. 4888 or art. 4888C regardless of the number of art. 1415 modules used, and a maximum of 3 internal units can be connected in cascade for each output of art. 1415. Dimensions: 60x85x35 mm (4 DIN modules)	
	1424	DIGITAL SWITCHING DEVICE. SIMPLEBUS 1 Switching device 1424 can be used to create Simplebus systems of up to 120,000 users. It can also be used to create multi-villa systems with doors and porter switchboards, centralising up to 500 kits. The device also makes it possible to control main and secondary switchboards within a system (which can be called independently) and offers alarm signalling to those particular switchboards. It allows cascade bus line distribution as an alternative to star distribution, optimising the connection topology for the part of the system before the power supply units 4888 and 4888C. It has a self-powering function for the LS LS input, which allows riser management without requiring a dedicated secondary external unit. 12 VAC (use transformer art. 1200) - 20 VDC power supply. Dimensions: 60x85x35 mm (4 DIN modules).	
	1998NA	AUDIO PORTER SWITCHBOARD. SIMPLEBUS 1 Audio porter switchboard in desk version for Simplebus 1 system with microswitch keypad and 32-character alphanumeric display. Ergonomic handset with easier hangup, thanks to concealed magnetic panels. Allows the code and name of the called and calling users to be displayed, keeping unanswered calls stored in the memory. Manages Day/Night mode and user/user intercom service. Allows management of alarm indications originating from users. Up to 1000 users can be saved in the memory. Supplied with a removable cable with connection hub. 24 VAC power supply with Art. 1195. Dimensions (LxHxD): 225x100x225 mm.	
	1998NV	AUDIO/VIDEO PORTER SWITCHBOARD. SIMPLEBUS 1 Audio/video porter switchboard in desk version for Simplebus 1 system with microswitch keypad and 32-character alphanumeric display. Ergonomic handset with easier hangup, thanks to concealed magnetic panels. Allows the code and name of the called and calling users to be displayed, keeping unanswered calls stored in the memory. Manages Day/Night mode and user/user intercom service. Allows management of alarm indications originating from users. Up to 4000 users can be saved in the memory. Supplied with a removable cable with connection hub. 24 VAC power supply with Art. 1195. Dimensions (LxHxD): 225x100x225 mm.	
	4576/100	COMELIT CABLE 2X0.5MM2 + 2X1.5MM2, SIMPLEBUS SYSTEM 1 - 100 M Specific cable for Simplebus 1 systems consisting of two power supply conductors (1.5 mm2) and a small telephone braid for the signals. 100m reel.	
	4576/500	COMELIT CABLE 2X0.5MM2 + 2X1.5MM2, SIMPLEBUS SYSTEM 1 - 500 M Specific cable for Simplebus 1 systems consisting of two power supply conductors (1.5 mm2) and a small telephone braid for the signals. 500m reel.	
	4577/100	COMELIT CABLE 2X1MM2 SIMPLEBUS 2 (100 M) Specific unshielded cable for Simplebus 2 systems (riser sections after the mixer) consisting of a twisted pair of black and red wires with cross-section 1 mm2. 100m reel. Main features of wires - Type: annealed red copper flexible cord, class 5 (32 x 0.2 mm) - Insulation: Polyethylene - Diameter with insulation: 2.2 mm - Insulation thickness: 0.6 mm Main features of the external insulation - Insulation: Green flame-retardant PVC CEI 20-22 II - Diameter: 6.5 mm - Thickness: 1.05 mm Electrical specifications - Resistance: < 19 Ohm/km - Test voltage: 2500V @ 5 min. - Rated voltage: 450-750V	

	4577/500	COMELIT CABLE 2X1MM2 SIMPLEBUS 2 (500 M) Specific unshielded cable for Simplebus 2 systems (riser sections after the mixer) consisting of a twisted pair of black and red wires with cross-section 1 mm2. 500m reel. Main features of wires - Type: annealed red copper flexible cord, class 5 (32 x 0.2 mm) - Insulation: Polyethylene - Diameter with insulation: 2.2 mm - Insulation thickness: 0.6 mm. Main features of the external insulation - Insulation: Green flame-retardant PVC CEI 20-22 II - Diameter: 6.5 mm - Thickness: 1.05 mm Electrical specifications - Resistance: < 19 Ohm/km - Test voltage: 2500V @ 5 min. - Rated voltage: 450-750V	
	4578/100	COMELIT OUTDOOR CABLE 2X0.5MM2 + 2X1.5MM2, SIMPLEBUS SYSTEM 1 - 100 M Specific cable for outdoors for Simplebus 1 systems consisting of two power supply conductors (1.5 mm2) and a small telephone braid for the signals. 100m reel.	
	4578/500	COMELIT OUTDOOR CABLE 2X0.5MM2 + 2X1.5MM2, SIMPLEBUS SYSTEM 1 - 500 M Specific cable for outdoors for Simplebus 1 systems consisting of two power supply conductors (1.5 mm2) and a small telephone braid for the signals. 500m reel.	
	4579/100	COMELIT OUTDOOR CABLE 2X1MM2, SIMPLEBUS 2 (100 M) Specific unshielded cable for Simplebus 2 systems (riser sections after the mixer) consisting of a twisted pair of black and red wires with cross-section 1 mm2. 100m reel. Main features of wires - Type: annealed red copper flexible cord, class 5 (32 x 0.2 mm) - Insulation: Polyethylene - Diameter with insulation: 2 mm - Insulation thickness: 0.8 mm. Main features of the external insulation - Insulation: polyvinyl chloride -vPVC flame retardant (IEC 60332-1/3) grey RAL 7032 CEI UNEL 36762 C-4 - Diameter: 6.8 mm - Thickness: 1.4 mm Electrical specifications - Resistance: < 18.4 Ohm/km - Test voltage: 2000V @ 5 min. - Rated voltage: 400V - Operating temperature: -30 - 90 °C	
	4579/500	COMELIT OUTDOOR CABLE 2X1MM2, SIMPLEBUS 2 (500 M) Specific unshielded cable for Simplebus 2 systems (riser sections after the mixer) consisting of a twisted pair of black and red wires with cross-section 1 mm2. 500m reel. Main features of wires - Type: annealed red copper flexible cord, class 5 (32 x 0.2 mm) - Insulation: Polyethylene - Diameter with insulation: 2 mm - Insulation thickness: 0.8 mm. Main features of the external insulation - Insulation: polyvinyl chloride -vPVC flame retardant (IEC 60332-1/3) grey RAL 7032 CEI UNEL 36762 C-4 - Diameter: 6.8 mm - Thickness: 1.4 mm Electrical specifications - Resistance: < 18.4 Ohm/km - Test voltage: 2000V @ 5 min. - Rated voltage: 400V - Operating temperature: -30 - 90 °C	
	4833C	LINE AMPLIFIER FOR SIMPLEBUS 1 VIDEO SYSTEMS Amplifier for Simplebus 1 video systems. Regenerates the video component of the riser signal. Equipped with microcontroller for optimal operation management. Follow the operating instructions in the technical documentation. Power supply: 12 VAC or 20 VDC. Only to be mounted on the system section feeding into the mixers art. 4888C (Simplebus 1 section). Dimensions: 66x85x37 mm (4 DIN modules).	
	4834/9	CONCENTRATOR MODULE W/ 9 OUTPUTS FOR SIMPLEBUS 1 SYSTEMS Line concentrator for video system. Allows distribution of the signal on 9 risers. Does not require a power supply. Only to be mounted on the system section feeding into the mixers. Dimensions: 66x85x37 mm (4 DIN modules).	
	4840	DISTRIBUTOR WITH 4 OUTPUTS. SIMPLEBUS 2 Line distributor for video system. Allows distribution of the signal on 4 risers. Does not require a power supply. Simplebus 2 System. Dimensions: 66x85x35 mm (4 DIN modules).	
	4888C	SIMPLEBUS 1 MIXER/POWER SUPPLY UNIT Mixer/Power supply unit for audio or audio/video systems with 1 input compatible with all outdoor entrance panels featuring Simplebus 1 technology and 4 outputs for the connection of up to 100 devices such as door-entry phones and door entry monitors featuring Simplebus 2 technology. It is equipped with an LED to signal any short-circuits detected on the lines and an AC output facility for powering additional devices such as switching devices art. 1224A, 1424 and/or actuator relay art. 1256. Allows intercom functions between users. Fitted with 4 terminals for line termination art. 1216. Dimensions (LxHxD): 140x140x67 mm (8 DIN modules).	

PRODUCT CATALOGUE

GUIDE TO VIDEO ENTRY TECHNOLOGY

NEW PRODUCTS

INTRODUCTION

VIDEO DOOR ENTRY

	4933	<p>SIMPLEBUS 2 DISTRIBUTOR AND AMPLIFIER 4933 is a concentrator with 6 outputs for star distribution of the video signal which is only directed and amplified towards the riser branch involved in the communication. 4933 regenerates and amplifies the video signal with two levels of gain independently over the 6 outputs to increase the operating distances. The riser outputs used must be programmed manually. Compatible with all Simplebus 2 functions and products. Only to be mounted on the system section feeding into the mixers art. 4888C (Simplebus 1 section). 115-230 VAC power supply. Housed in an 8-module DIN enclosure. Dimensions: 140x140x67 mm.</p>	
POWER SUPPLY UNITS AND ACCESSORIES VIP SYSTEM			
	1437	<p>VIP SCAN PROTECTOR Protection device for ViP system. When this device is installed in the system, credentials will be required in order to use the configuration software ViP manager. For use and programming of the device, refer to the indications in the technical documentation. RJ45 connector. Dimensions: 66x85x35 mm (4 DIN modules).</p>	
	1440A	<p>IP (VIP) FLOOR DISTRIBUTOR Floor distributor (switch) for IP door entry monitors for routing the data packets of the Comelit ViP system. Equipped with 6 Ethernet communication ports with Comelit PoE (10/100Mbit/s). Product 1440A negotiates the connection speed depending on the connected devices, and the Comelit PoE allows cascade power to be supplied to several 1440A products by enabling the system to be connected over longer distances than the PoE standard. Dimensions: 71x89x62 mm (4 DIN modules).</p>	
	1441	<p>110-230 VAC / 55 VDC, 100W IP POWER SUPPLY UNIT (VIP) 230 VAC/110 VAC 100W - 55 VDC din rail power supply unit (6 modules). Dimensions: 106x89x62 mm.</p>	
	1443	<p>ACTUATOR RELAY MODULE. VIP Intelligent device for controlling a relay on board (12-24 VAC/VDC / 10A max.) for general uses. Follow the instructions provided in the technical documentation for its use and programming. This device can be used in all ViP systems. Dimensions: 66x85x35 mm (4 DIN modules).</p>	
	1445H	<p>REMOTE CAMERA MODULE. VIP This modulates and sends the video signals received from 4 cameras. RJ45 connector. Dimensions: 60x85x35 mm (4 DIN modules). Compatible with H.264 video format.</p>	
	1446H	<p>PAL OR NTSC VIDEO OUTPUT MODULE. VIP Generates system output video signal in PAL or NTSC format. RJ45 connector. Dimensions: 60x85x35 mm (4 DIN modules). Compatible with H.264 video format.</p>	
	1447	<p>SIGNAL REPEATER MODULE FOR RISER. VIP ViP system 10/100Mbit/s active signal repeater module for riser. Local power supply not required. Up to 8 devices can be connected in cascade. Two RJ45 connectors (PSE/PD) required NOT supplied as standard IEEE802.3at/af. Dimensions: 60x85x35 mm (4 DIN modules).</p>	
	1448	<p>PC SWITCHBOARD SOFTWARE FOR VIP SYSTEM Software on micro USB key to easily and intuitively manage and control all the typical porter switchboard functions. In addition to the classic ViP video entry functions, the software is used to receive and forward audio/video calls and to manage alarms originating from the apartments; it has a directory of actuators, internal units and external units which, when suitably programmed, easily identify the apartment and the external unit from which the call originated. It also has a recording archive where all the calls from internal/external units (calls made, managed lost and switched) and alarms are stored. It is also possible to send messages to internal units. The software comes complete with a user licence. The micro USB key must always be plugged into the computer to ensure correct operation. Minimum operating system Windows 8 32/64 bit.</p>	

	1449	<p>4-POLE ETHERNET CABLE RJ45, 2 METRES. RJ45 Ethernet cable, 4-pole connection, length 2 metres. For connecting switch 1440A to the PC.</p>	
	1450	<p>BARCODE READER FOR VIP SYSTEM DEVICES Barcode reader used to detect the unique code of the device to be programmed, needed to program all devices within the ViP system, for example: door-entry phones, door entry monitors, external units, actuators, etc. Supplied with interface and USB cable for connection to PC.</p>	
	1451A	<p>POE POWER SUPPLY UNIT FOR VIP SYSTEM MONITOR The power supply unit converts an ETHERNET connection into a POE-type connection supplying an internal unit. The power supply unit is required to support the installation of ViP devices such as: door entry monitors / door-entry phones on existing ETHERNET networks with non-POE (Power Over Ethernet) connections.</p>	
	1451B	<p>POE POWER SUPPLY UNIT 24W. VIP Plug-in power supply unit with PoE injector (Power over Ethernet, standard IEEE802.3af), input 100-240 VAC, output PoE 48 VDC, maximum output power of 24W for ViP system devices.</p>	
	1452	<p>REMOTE CONNECTION INTERFACE. VIP The interface connected to the ViP system allows remote use of that system via Internet. System must be connected to a router with Internet connection. For connection to floor distributor art. 1440A; powered directly by the system. Dimensions: 190x165x44 mm</p>	
	1454	<p>DOOR ENTRY MONITOR PC SOFTWARE. VIP Software on micro USB stick that allows a PC to be used for answering calls like a door entry monitor. For installation and use on a PC wired directly to the system. Minimum operating system Windows 8 32/64 bit.</p>	
	1454K	<p>DOOR ENTRY MONITOR PC SOFTWARE FOR KIT. VIP Software on USB stick that allows a PC to be used for answering calls like a door entry monitor. Pre-set for operation with the single-family VIP KIT art. 8501. For installation and use on a PC wired directly to the system.</p>	
	1459	<p>CALL LOG. VIP SYSTEM Server device for ViP system that allows the recording, storage and playback of calls from external units. Complete with Call-Log administrator software for settings (IP address, date, time, enable audio, video or audio-video recording, recording duration and recording storage time) and recording filters (days of the week, external unit making the call, internal unit receiving the call). Compatible with Windows operating systems. 19 VDC power supply. Equipped with power supply unit with 100-240 VAC 50-60 Hz input and 19 VDC output. Dimensions: 190x190x55 mm.</p>	
	1952N	<p>AUDIO/VIDEO PORTER SWITCHBOARD. VIP Desktop audio-video porter switchboard with touchscreen and alphanumeric keypad, making the functions simple and straightforward to use. Displays visitor images and the name of the user to call. Day/night mode and user/user intercom service. 12 VDC power supply with art. 43082 or direct from the ViP Ethernet network.</p>	
	1467	<p>VIP - FIRE INTERFACE MODULE Module for integration of IP (ViP) and Fire Detection systems. The device can be used to address incoming alerts from a fire alarm control unit to the IP (ViP) system. The alerts can be forwarded and shown on the door entry monitor and/or the porter switchboard. In particular pre-alarm, alarm and evacuation messages can be shown on the door entry monitors and on the switchboard. The switchboard can also provide alerts if faults are present.</p>	

	1468	INTER-VLAN ROUTING INTERFACE This is the solution for installations where several VLANs are present and ViP devices need to be installed on them. To establish a connection between two or more VLANs, you need to install a device for every VLAN. The device is configured easily using ViP Manager; it requires a static IP address and the devices installed on the other VLANs to be connected must be configured.	
	1469	SIMPLEBUS INTERFACE FOR VIP SYSTEM BASE Interface for the management of hybrid video entry phone system configurations with door-entry phones and door entry monitors using 2-wire technology (SimpleBus and SimpleBus 2) and devices using IP technology for the basic system structure (external units, switchboards, actuator modules, call logs). The 2-wire door-entry phones and door entry monitors can receive calls from the ViP external unit and forward commands to ViP devices (self-ignition, call to main and/or secondary switchboard, actuator control, view ViP cameras, view RTSP cameras, etc.). The interface has 1 Ethernet port for IP video entry system connection, L-L terminals for connection to the SimpleBus system, power supply: 12-56 VDC. Dimensions: 70x90x59 (4 DIN modules).	
	1484	VIP INTERFACE FOR INTEGRATION WITH VMS Module for integration of the ViP video entry system with the VMS software. The module monitors the ViP system and forwards information to the connected VMS software. Forwarded information includes: ViP device connection status, call started, call answered, call failed, call forwarded. VMS supported: Wisenet SSM by Hanwha Techwin. The module has 5 Ethernet ports for connecting the ViP system to the network, and two PoE ports with selectable PoE are available for interfacing with the VMS. It also has a 40-56 VDC power supply input. Dimensions: 70x90x62 mm (4 DIN modules).	
	1456LC	LIFT CONTROL INTERFACE - VIP Interface for KONE lift management. The module has 5 Ethernet ports for connecting the ViP system to the network, and a PoE port with selectable PoE is available for interfacing with the lift management system. It also has a 40-56 VDC power supply input. Dimensions: 70x90x62 mm (4 DIN modules).	

POWER SUPPLY UNITS AND COMMON ACCESSORIES

	1195	230 VAC / 12-24 VAC / 60 VA TRANSFORMER DIN rail mount transformer (5 modules), 230 VAC / 50-60 Hz input, 12/24 VAC output with terminal board.	
	1595	120-230 VAC / 33 VDC POWER SUPPLY UNIT Power supply unit with 120-230 VAC input, 33 VDC output of 500 mA in continuous operation and 1.2A inrush current, for outdoor entrance panels. Equipped with internal protection against current overload and short circuits. Dimensions: 71.7x90x62 mm (4 DIN modules).	
	1596B	POWER SUPPLY UNIT 100-240 VAC/ 33 VDC, 60 W. PSE CERTIFIED Power supply unit with 110-240V primary and 33 VDC / 1.8A continuous output for 316 Touch entrance panel art. 3454. Equipped with internal protection against current overload and short circuits. Dimensions: 118.09x92.59x60.5 mm (7 DIN modules). PSE certified.	
	1217A	NAMEPLATE LABEL SHEETS FOR QUADRA WITH BUTTONS The kit contains 10 sheets of adhesive labels for nameplates (7 for 1-button nameplates, 2 for 2-button nameplates, 1 for 4-button nameplates) for Quadra entrance panel with mechanical buttons.	 
	1235A	SOFTWARE FOR PRINTING NAMEPLATE LABELS Dedicated software for the creation and printing of nameplate and information labels for Ikall, Vandalcom, Quadra and 316 Analog entrance panels. Requires use of adhesive labels art. 1217, 1218, 1219 or art. 1220. You can download this software for free from the Comelit website.	 

	1249B	PROGRAMMING SOFTWARE FOR ELECTRONIC DIRECTORY Software to be installed on a PC. It allows the name directory of digital modules 3360, 3340, 3342, 3070 or 3072 and of the porter switchboard 1998NA to be programmed quickly, and allows archive management on PC. Equipped with cable and adapter for connection to PC. Compatible with all Simplebus 2 functions and products.	
	1250IA	ACCESSORY FOR MOUNTING IKALL AUDIO UNITS ON SINGLE-PLATE PANEL Accessory allowing the installation and use of Ikall audio modules art. 1622, 1622VC, 1622VCF and 1682 on N and AV/4 series entrance panels, and single-plate entrance panels in general. Fitted with a voltage reducer for powering festoon lamps if used with power supply unit 1595 or 1207.	 
	1250IAL	ACCESSORY FOR MOUNTING IKALL AUDIO UNITS ON LED SINGLE-PLATE PANEL Accessory allowing the installation and use of Ikall audio modules art. 1621, 1621VC and 1622L on N and AV/4 series entrance panels, and single-plate entrance panels in general. Fitted with a voltage reducer for powering festoon lamps if used with power supply unit 1595.	 
	1250IKV	ACCESSORY FOR MOUNTING IKALL AUDIO/VIDEO UNITS ON SINGLE-PLATE PANEL Accessory allowing the installation and use of Ikall audio/video modules art. 4680, 4680C, 4680K, 4680KC, 4682C, 4682KC, 4675 and 4673 on single-plate entrance panels in general.	 
	1250IV	ACCESSORY FOR MOUNTING IKALL AUDIO/VIDEO UNITS ON SINGLE-PLATE PANEL Accessory allowing the installation and use of Ikall audio/video modules art. 4680, 4680C, 4680K, 4680KC, 4681, 4682C, 4682HC, 4682KC, 4682HKC, 4675 and 4673 on single-plate entrance panels in general. Fitted with a voltage reducer for powering festoon lamps if used with power supply unit 1595 or 1207.	 
	3061MU	MASTER BUTTON WITH NAMEPLATE. EU GROUPS Master button for use in Simplebus 1, Simplebus 2 and ViP systems. To be used in systems with EU series units. UDB communication protocol. It consists of a nameplate holder and a mechanical stainless steel call button. The brightness level of the white LED can be adjusted on the back. Up to 3 slave buttons art. 3061S can be connected to the button using the supplied cable. Installation should take place on 2.5 mm thick metal front panels.	
	3061S	SLAVE BUTTON WITH NAMEPLATE Slave button for use in both Simplebus and ViP systems, consisting of a nameplate and a call pushbutton in steel. The brightness level of the white LED can be adjusted on the back. Installation should take place on 2.5 mm thick metal plates.	
	3063U	8-BUTTON INTERFACE SIMPLEBUS 1-2/VIP FOR SINGLE-PLATE PANEL Interface for the management of 8 buttons, for use with single-plate outdoor entrance panels. Compatible with all systems. Works in conjunction with audio or audio/video modules for the Ultra series entrance panel. Complete with 475 mm long cable with connectors for connection to the audio or audio/video module, or other button interfaces. Cable connection via spring-loaded terminal block. Dimensions (LxHxD): 74 x 42 x 18 mm.	
	20005000	VIP INTERFACE FOR S2 SYSTEMS This interface allows monitors and home automation supervisors of the ViP system to be used on SimpleBus2 audio/video systems. ViP monitors/system managers can be used to receive calls from the external unit, and to make calls and control SimpleBus2 devices (self-ignition, main and/or secondary switchboard call, general intercom call [selective intercom call is NOT available], actuator control, camera module control, etc.). This interface also allows for integration with the SimpleHome automation system and video entry phone call forwarding via the Comelit App. The interface is equipped with 1 Comelit PoE Ethernet port for connection to the ViP monitor and terminals for connection to the SimpleBus2 system. Power supply: 12-56 VDC. Dimensions: 70x90x59 (4 DIN modules).
