DOOR ENTRY  
SYSTEM RANGE

 **Comelit**  
Passion. Technology. Design.

A photograph of a modern building facade featuring large glass windows and white structural frames. The building has a dark grey upper section and a white lower section. The windows are framed by white, angular structures that create a series of vertical and horizontal lines. The sky is blue with some clouds, and the foreground is a green lawn.

**COMELIT** DOOR ENTRY SYSTEM RANGE

ADVANCED  
TECHNOLOGY AND  
ITALIAN DESIGN  
IN A RANGE OF  
SPECIALISED  
SOLUTIONS  
GUARANTEED BY  
AN INTERNATIONAL  
BRAND.

Founded in 1956, Comelit Group SpA is an industrial company operating on a worldwide scale and specialising in the design and manufacture of video entry, video surveillance, anti-intrusion, home automation, access control systems and Fire Detection systems.

The company has a strong international vocation thanks to its close ties with the area in which it was created and in which its headquarters are still located today.

Comelit exports to more than 70 countries in the world and, in addition to the Italian headquarters, it consists of 15 branches located in the strategic areas in which it operates: from Europe to the Far East, from the United States to the Middle East. An articulated commercial structure, which integrates a common know-how with the knowledge of the specific needs of each market.

# FOCUSING ON MANKIND AND HIS VALUES.

Comelit has always placed mankind at the centre of its vision. This humanist approach is evident in the company's focus on its employees, in the organisation of its working environment, in the ethics governing its relationships with suppliers and distributors, and in the partnership it fosters with installers. Every Comelit product expresses this vision, constructed on the basis of enduring values.

# CONSTANT INNOVATION, FRIENDLY TECHNOLOGY.

Constantly looking at the future is Comelit's mission. Innovation through continuous investments in men and technology, is expressed in the design of new solutions, in the name of maximum simplicity and functionality, able to contribute to a better quality of everyday life.

# DESIGN: STYLE, PASSION, ART.

Besides placing technology at the service of mankind, Comelit is also a byword for design. Its unique and original style combines the most hi-tech materials with simple lines, clean shapes and cutting-edge colours. Every Comelit product therefore conveys a new concept for living in a space, in harmony with modern architectural trends.

ANSWER WHEREVER  
YOU ARE.

# COMELIT APP

The Comelit App allows your video entry systems to be managed remotely by smartphones and/or tablets connected to 3G networks or above.

The Comelit APP is available free of charge for iOS and Android devices.

## ANSWER DOOR CALLS

You can answer audio or audio / video calls from a smartphone or tablet locally or remotely (with 3G or higher network).

## VIDEO MEMORY

The Video Memory function allows to record and view videos from external units and CCTV cameras (up to 10 seconds).

## VIEW AND MANAGE CAMERAS

You can view (live) CCTV cameras and images from the entrance panels.

## ACTUATOR ACTIVATION AND MANAGEMENT

This function is used to control actuators to control lights, gates, barriers, etc.

## FACE RECOGNITION

Just a call from the external unit and a few seconds. You're at the door, you ring the bell and the connected monitor sends a series of images to the Comelit cloud service, inside which a familiar face is detected: yours. The monitor sounds and warns that a known person has arrived. The phone rings, a notification arrives, it says you have arrived. But this is not enough. If you want, the monitor will also open the gate automatically, and why not? turn on the driveway light.
